Reference attached drawing 2.

Two pipelines were added to the drawing. These pipelines parallel the SW Pass channel and cross the outlet at Burrwood Bayou. One pipeline is owned by Equilon Pipeline (EPL)/Shell Pipeline Co. The contact for the Equilon PL (EPL)/Shell pipeline is Kevin Ladet at 985-637-0094. Elevation of the EPL/Shell pipeline is unknown. However, on 31 Jan 04, the Corps' Venice Sub-office drug a leadline across the location of the pipeline and across the outlet. The leadline was set 15' below the water's surface with a gage reading that day of +3.7 M.L.G. The leadline did not encounter any obstruction while held at a depth of 15' across the outlet.

With regards to the 6" Tenn. Gas Pipeline, according to Tennessee Gas reps, this P/L was bored under and across the outlet about 5 years ago and was not suspended or exposed. For more information contact Pat Adams at 985-223-6139.
