NAVIGATION BULLETIN NO. 17-57

GULF INTRACOASTAL WATERWAY
HARVEY LOCK (UPDATE)

Reference Navigation Bulletin No. 17-20, dated 20 March 2017, stating that commencing on or about 1 August 2017 and continuing until approximately 30 September 2017, the Harvey Lock will be closed to navigation 24 hours a day due to dewatering operations, repairs, and maintenance to the lock, which will be performed by a U.S. Government Hired Labor Unit.

MARINERS ARE ADVISED THAT THE DEWATERING OPERATIONS, REPAIRS, AND MAINTENANCE AT HARVEY LOCK HAS BEEN RESCHEDULED. THE WORK WILL COMMENCE ON 6 SEPTEMBER 2017 AND CONTINUE UNTIL APPROXIMATELY 6 NOVEMBER 2017.

The start date for the dewatering operations is tentative and is based on the Mississippi River stage, requiring that the river stage at the Carrollton gage is at 6.0 feet and falling.

Algiers Lock can be used as an alternate route.

Mariners are advised that updated navigation bulletins will be issued in the event there are changes to the dewatering operations schedule.

The Lockmaster at Harvey Lock, Greg Desselles, can be reached at 504-366-4683 for up-to-date information (lock wall number is 504-366-5187). The point of contact with the New Orleans District is Victor Landry at 504-862-2407.
