NAVIGATION BULLETIN NO. 18-76

MISSISSIPPI RIVER
SUBAQUEOUS STONE PLACEMENT

Beginning on or about 22 May 2018 and continuing until approximately 15 July 2018, a U.S. Government Contractor will be placing subaqueous stone on the Right Descending Bank (RDB) of the Mississippi River at Mile 44.0 Above Head of Passes (AHP).

The Contractor will work during daylight hours, 7 days a week, and the plant will include a trackhoe barge with an anchor system set up with 2 anchors riverward and 2 anchors landward. Various material and support barges will also be on-site and staged outside the channel.

The M/V PINE BLUFF will monitor VHF-FM marine channels 67 and 88-A.

Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made.

The point of contact with the New Orleans District is John Page at 337-291-3015.
