WELCOME TO BONNET CARRÉ SPILLWAY

The U.S. Army Corps of Engineers, New Orleans District welcomes you to the Bonnet Carré Spillway area located in southeastern Louisiana. The Bonnet Carré Spillway Area was established in 1928 as a flood damage risk reduction project along the lower Mississippi River. The spillway is located in St. Charles Parish and is situated between New Orleans and Baton Rouge, between the Mississippi River and Lake Pontchartrain. When the project is not in operation, the 7,623 acre area is open to public access and outdoor recreation. Bonnet Carré Spillway offers excellent small game hunting including squirrel, rabbit, woodcock, snipe and mourning dove, as well as opportunities to hunt waterfowl and white-tailed deer.

It is your responsibility to know the hunting seasons and regulations. Please read through this hunting pamphlet prior to hunting for your safety and the safety of the other project visitors. Project boundaries and no hunting areas are depicted on the enclosed map.

Hunter participation and wildlife harvest data are vital to the successful management of wildlife resources. Complete and accurate harvest information will aid in future management decisions. In order to provide harvest data please contact the Spillway Project Office or call (985) 397-3416 to speak directly to a Ranger. Volunteers are needed on the project. If you are interested in volunteering, please stop by or contact the Spillway Project Office for more information.
