Winston, as discussed, this project may proceed under the guidelines of our NOD-20 emergency general permit (copy attached) for the New Orleans District. We ask that you work with our Real Estate Division on appropriate documentation since your proposal does impact property that we have interest in. The following provides appropriate information:

Our Real Estate Division has indicated that your project is located in an area over which the federal government holds real estate interest. Please contact our Real Estate Division at your earliest convenience to discuss this issue at(504) 862-1701. When contacting them please let them know this was an emergency authorization coordinated through my office in case they have questions.

Thanks again for coordinating and best of luck in your efforts.

Michael V. Farabee

Pete,

The LA National Guard called into the EOC. They need to build a loading pier out into the water to load out oil booms around Shell Beach. They are looking for an emergency permit. The attached slide shows a close up of the location and includes some lat/longs.

The contact with the National Guard is Winston Matejowsky at [redacted]. Please have someone get in touch with him ASAP and coordinate this permit.

Thanks,
Mike

Sir,

Attached is the graph for the proposed location of the pier. We would like to have piles driven at the ends of the red lines depicting the pier. Please let us know if you need anything more. We will also be getting you info of the type of piles that we will need driven. We are working on the who or how on the piles.

Thanks
