

CAUTION
 OLD RIVER CONTROL STRUCTURES
 Very dangerous currents in and near beginning of inflow channels when structures are in operation. Flashing amber lights and horns are located on the south points of the inflow channels of the Low Sill and Auxiliary structures. The inflow channels are NOT navigable channels, therefore, under no circumstances should any vessel attempt to enter. Tows and other vessels should navigate as far as possible from this area and as close to the left descending bank of the Mississippi River as safety will permit.

CAUTION
 SIDNEY A. MURRAY, JR. HYDROELECTRIC STATION
 Very dangerous currents in and near beginning of inflow channels when structure is in operation. The inflow channel is NOT a navigable channel, therefore, under no circumstances should any vessel attempt to enter. Tows and other vessels should navigate as far as possible from this area and as close to the left descending bank of the Mississippi River as safety will permit.
