SECTION SF 30 BLOCK 14 CONTINUATION PAGE

1. Section 00010-3 In Bid Item 0005, change estimated quantity from “6” to “1” and Unit from “LF” to “LS”.
2. Section 00010-3 On Bid Item 0014, change estimated quantity from “5,374” to “8,061” and units from “CY” to “TON”.
3. Section 02111 Paragraph 1.5.1.2. In the second sentence, change “01 Dec” to “01 Jan”.
4. Section 02221 Paragraph 1.2.1 Remove sentence “Concrete will be measured by the linear foot (LF) and determined from the field dimensions of the concrete” and replace with “ No measurement will be made for concrete removed from wingwalls. In the second sentence change “floodwalls” to “wingwalls” in two places. Change “Linear Foot (LF)” to “Lump Sum(LS)”.
5. Section 02221 Paragraph 3.2.4 Replace the second and third sentences with “All sheet piling pulled shall become the property of the Contractor and shall be removed from the site at no additional cost to the Government.”
6. Section 02252 Paragraph 1.1 Add the words “to a depth of 24 inches” between “structures” and “as”.
7. Section 02252 Paragraph 3.5 Since fresh water is not available on the site, curing can be accomplished by using a sprayed on curing compound that meets the requirements for membrane-forming curing compound that conforms to ASTM C 309, Type 1-D or 2, class B.
8. Section 02252 Paragraph 1.1 Add the words “to a depth of 24 inches” between “structures” and “as”.
9. Section 02273 Paragraph 1.3.3.1 In the forth sentence from the end of the paragraph, change “Armor Stone” to “Bedding Stone”
10. Section 02273 Paragraph 1.3.3.2 change “unit price per cubic yard” to “unit price per Ton”.
11. Section 02273 Paragraph 1.3.4.1 Replace paragraph 1.3.4.1 with

“ 1.3.4.1 Measurement

The unit of measurement for stone satisfactorily placed in the work will be the ton (2,000 pounds). Quantities will be computed to the nearest whole ton. If delivered by barge, the Contracting Officer’s representative will measure stone for payment by weight determined by barge displacement. Not less than 10 days prior to unloading stone from any barge for which a displacement table has not previously been furnished and approved, the Contractor shall furnish with the barge displacement tables a drawing or sketch of each barge, dimensioned in sufficient

detail to permit checking of the tables. The drawing shall show, as a minimum, the length, width, and depth of the barge, and dimensions of the rake or takes. Each such table shall have its accuracy certified by a person or firm, other than the Contractor, customarily performing this service and who has been approved by the Contracting Officer. Each table submitted shall show the name and/or number of the barge dimensions, the barge owner, the name of the fabricator, certification, and date of certification of the person or firm preparing the table. All new or modified barges shall be field checked for current dimensions by the Contractor, in the presence of the Contracting Officer's Representative. Each table submitted shall contain in parallel columns, the freeboard of the barge in feet and tenths from zero to the full depth of the barge, and the corresponding gross displacement-gaging lines along each side of the barge. Each gaging line shall be painted perpendicular to the edge of the barge and be no less than 4 inches wide and 1 foot long, on both the deck and side of the barge. Barges with rakes shall have the displacement gaging lines placed at each corner of the box section between the rakes. If a barge has a box end or ends, the gaging lines shall be placed approximately four feet from the box end. The freeboard will be measured at the four gaging locations and the displacement determined by the use of the "CELMV Standard Barge Tables" from the average of these measurements. The displacement shall be determined before and after the barge is delivered. All barge measurements will be taken without adjustment for the degree of salinity in the water. The Contractor shall, during bid preparation, estimate the degree of salinity present in the water and include any adjustments in the bid price for the riprap. All barge displacement measurements will be taken assuming fresh water. The determination of satisfactorily placed stone shall be based on survey cross sections. The quantity of stone placed in the work will be reasonably estimated at each individual work site and quantities adjusted upon completed use of a barge of material, or completion of the contract. No payment will be made for any unauthorized use of the stone."

12. Section 02318 Paragraph 1.2.1 Add: "(truck measure) in approved vehicles at the site of the work" at the end of the second sentence after "cubic yard".

13. Section 02318 Paragraph 1.3.1 Delete the words "will be" in the first sentence after "Payment".

14. Section 02332 Paragraph 2.1. Delete the entire paragraph and replace with

"Materials used as granular backfill to establish the proper grade beneath the floodwall monoliths shall be river sand classified as SP (with 0% to 5% fines) or SP-SM (with 5% to 12% fines)."

15. Section 09940 Paragraph 1.2 Replace paragraph 1.2 with "No separate measurement and payment will be made for painting sheet piling. Payment for painting sheet piling shall be included in the square foot (SF) cost for the Bid Item for Piling, Steel Sheet, PZ 27".

16. Section 15005-3.1.1 Delete the last two paragraphs entirely and replace with: "The Bidder shall include in his bid the cost of replacing the reducers. The reducers are shown on drawing M1, see General Notes 1 and 8. The Bidder shall include in his bid the cost of repairing the speed reducers at the Philadelphia Gear facility located at 10830 Train Court, Houston, TX,

77041. Bidder shall include the cost for removal, shop repairs, round trip transportation and any other necessary and required ancillary services for the refurbishing of the speed reducers offsite under the applicable Bid Item No.22.”

17. Section 16050N Paragraph 1.13 In title “M” to “EASUREMENT”.
18. Section 16050N Paragraph 1.13 Replace paragraph 1.13 with “No separate measurement and payment will be made for basic electrical materials and methods. Payment for basic electrical materials and methods will be included in the lump sum (LS) price for Bid Item ‘Electrical Modifications and Repair’. Price and payment shall constitute full compensation for furnishing the design, and all plant, labor, equipment and material to complete the work as specified herein and as shown on drawings.”
19. Section 16120A Paragraph 1.7 Replace paragraph 1.7 with “No separate measurement and payment will be made for insulated wire and cable. Payment for insulated wire and cable will be included in the lump sum (LS) price for Bid Item ‘Electrical Modifications and Repair’. Price and payment shall constitute full compensation for furnishing the design, and all plant, labor, equipment and material to complete the work as specified herein and as shown on drawings.”
20. Section 16264A Paragraph 1.9 Replace paragraph 1.9 with “No separate measurement and payment will be made for diesel generator set. Payment for diesel generator set will be included in the lump sum (LS) price for Bid Item ‘Electrical Modifications and Repair’. Price and payment shall constitute full compensation for furnishing the design, and all plant, labor, equipment and material to complete the work as specified herein and as shown on drawings.”
21. Section 16402 Paragraph 1.9 Replace paragraph 1.9 with “No separate measurement and payment will be made for motor control and power distribution system. Payment for motor control and power distribution system will be included in the lump sum (LS) price for Bid Item ‘Electrical Modifications and Repair’ in Section 16050”.
