ADDITIONAL BID FORM NOTES:

1. BIDDING.

a. The bidder must select only one bid lot, determined by the class of dredge intended to be used. Bids which are submitted on an inappropriate bid lot will be declared non-responsive.

b. Bidders shall furnish unit prices for all items listed on the schedule of bid items that require unit prices. If the bidder fails to insert a unit price in the appropriate blank for required items but does furnish an extended total or an estimated amount for such items, the Government will deem the unit price to be the quotient obtained by dividing the extended estimated amount for that line item by the quantity. IF THE BIDDER OMITTS BOTH THE UNIT PRICE AND THE EXTENDED ESTIMATED AMOUNT FOR ANY REQUIRED ITEM, THE BID WILL BE DECLARED NON-RESPONSIVE.

2. EVALUATION OF BIDS.

a. To provide fair competition between dredges of different production rate and capacity, the required dredging quantities and any optional dredging quantities are based on an estimated quantity of shoal material, and on the tested production rate of each dredge class.

b. Award will be made to that responsible Bidder presenting the lowest-priced responsive bid in response to this solicitation, regardless of the bid lot used.

c. The hourly quantity shown on the bid lots for Bid Items designated as "Dredging" are 100% pay time hours. The actual calendar duration of the contract may vary as a result of fractional pay time. Refer to paragraph 02328-1.2.2 entitled "Dredging and Option Dredging Items" for additional information.

3. CONDITIONS OF CONTRACT AWARD.

a. Award will be made as a whole to one bidder. The dredge and attendant plant offered in the bidding schedule shall be complete with full operating personnel and in operating status for the contract period. EM 385-1-1, Section 19, "Floating Plant and Marine Activities" shall be complied with at all times. NOTE: All work under these specifications shall be performed in accordance with the provisions of EM 385-1-1 "Army Corps or Engineers Safety and Health Requirements manual", dated 3 Nov 2003.

b. The number of rental time hours for each bid lot of the bidding schedule are estimated quantities. The dredge and attendant plant will be retained for an approximate number of days according to the table below starting from 240 hours after receipt of Notice to Proceed by the Contractor.

APPROXIMATE HOPPER DREDGE CONTRACT DURATION (BASE PLUS OPTION)				
Bid Lot	Pump inside diam. inches	Hopper Size Cubic Yards	No. of Dragarms	Approximate Number Of Rental Days
1	38	12430	2	62

8	27	3700	2	94
9	28	4350	1	120
10	21.5	1300	1	189

c. The bidder must be capable of providing for assignment of the dredge and all attendant plant, complete and in full operating condition in all respects, within 240 hours after receipt of Notice to Proceed by the Contractor.

4. BIDDER QUALIFICATIONS.

a. Before the Government will award a contract based on this solicitation, the apparent low bidder shall establish that it is responsible and entitled to award of the contract, by certifying that its dredge meets the appropriate production rate, as listed in the table of paragraph 02328-1.5.1 entitled, "Dredge Plant". The dredge must perform at or above the listed production rate at least 85% of the time, as established by other contracts completed within three years prior to the bid opening date of this solicitation. Failure to establish an adequate capability will result in a finding of non-responsibility.

b. A bidder may be rejected as non-responsible if it cannot show the necessary capital, experience, or equipment needed to perform the work described under this solicitation (see FAR 9.1). The bidder must also show that the dredge and attendant plant is not already obligated for the performance of other work that would delay commencement, performance, and completion of the solicited work; and must show that delivery of the dredge and attendant plant to the site of work can be made within the time allowed in the specifications.

5. PRE-AWARD INSPECTION OF PLANT.

a. The apparent low bidder shall make the dredge and attendant plant available for inspection, to determine compliance with these specifications, as soon as practicable after bids are opened, and prior to contract award. If deficiencies are found during the inspection, the bidder will be notified in writing, which may be transmitted by telegraph or facsimile. Upon receipt of such notice, the bidder shall correct all deficiencies at least two calendar days in advance of the projected contract award date.

b. Two calendar days before the projected award date, or upon notification by the bidder that the deficiencies have been corrected, a Government representative will re-inspect the dredge and attendant plant. If at that time the dredge and attendant plant do not meet the requirements of these specifications, the bidder will be rejected as non-responsible.

c. The Government may choose to waive the pre-award inspection if the projected contract award date is less than five calendar days after the bid opening date. Waiver of the pre-award inspection does not relieve the bidder from the requirement to provide a dredge and attendant plant in full compliance with the specifications.

3.2.5 Inspection of Samples

(1) Samples shall be made available for inspection by the Contracting Officer's Representative with the before-dredging surveys. After this inspection is complete, and no more than 96 hours after sampling, the Contractor shall deliver the samples to the New Orleans District, USACE, 7400 Leake Avenue, New Orleans, LA 70118, ATTN: Mr. James McCrory/CEMVN-ED-FG-P, Room 105. The Contractor shall contact Mr. James McCrory at (504) 862-1868 prior to delivering the samples.

(2) Samples will be accepted on Monday through Friday from 7:00 a.m. to 4:00 p.m. No samples will be accepted on Saturday, Sunday, or Federal Holiday. If a Federal Holiday falls on a Friday or Monday, and the 96-hour limit expires on that day, the sample will be accepted on the following working day without any assessment for late delivery.
