RE: Water Quality Certification (WQC 021127-03/AI 104596)
Iberville Parish

Dear Mr. Boe:

The Department has received an application to excavate and fill to install a new 1,200-foot long, concrete-chambered, sector-gated lock, along with new connecting channels, on the Gulf Intracoastal Waterway, Morgan City to Port Allen Alternate Route.

The requirements for Water Quality Certification have been met in accordance with LAC 33:IX.1507.A-E. Based on the information provided in your application, we have determined that the placement of the fill material will not violate the water quality standards of Louisiana provided for under LAC 33:IX.Chapter 11. Therefore, the Department has no objection to this project.

Sincerely,

Jodi G. Miller
Environmental Scientist Manager

RE: Revision of Water Quality Certification (KA 021127-03
AI 104596/CER20020001)
Iberville Parish

Dear Mr. Bennett:

We have received your letter and attachments concerning the revision to your application to excavate and fill to install a new 1,200-foot long, concrete-chambered, sector-gated lock, along with new connecting channels, on the Gulf Intracoastal Waterway, Morgan City to Port Allen Alternate Route. This revision proposes to add rock armament along the bankline of the Lower Grand River, and add 27 mooring buoys along the edge of the river as part of the Bayou Sorrel Lock replacement project.

Please be advised that we have reviewed the information as noted therein and interpose no objection to this revision.

Sincerely,

Jodi G. Miller
Environmental Scientist Manager
