WIDENING OF THE INDUSTRIAL CANAL

We the residents of the Lower Ninth Ward and others hereby declare our opposition to the Industrial Canal expansion project of the U.S. Corps of Engineer. We believe this project is a direct threat to safety, environment, residential property values, historical continuity, business viability, family and social fabric, as well as, transportation that can not be compensated.

We will not accept this project. We believe the process the Corps of Engineers used is unfair.

WIDENING OF THE INDUSTRIAL CANAL

We the residents of the Lower Ninth Ward and others hereby declare our opposition to the Industrial Canal expansion project of the U.S. Corps of Engineer. We believe this project is a direct threat to safety, environment, residential property values, historical continuity, business viability, family and social fabric, as well as, transportation that can not be compensated.

We will not accept this project. We believe the process the Corps of Engineers used is unfair.

On February 19, 1957, a town meeting was conducted in St Bernard Parish to receive public comment on the Industrial Canal Lock Replacement project proposed by the U.S. Corps of Engineers.

We, the undersigned would like to express our support for a lock project if and only if, the Corps of Engineers will include the closure of the Mississippi River Gulf Outlet as a primary element of the proposed project and a high rise bridge be erected at Florida Avenue over the Industrial Canal.
