Mr. Jerome Zeringue  
Chairman, Coastal Protection and  
Restoration Authority of Louisiana  
1051 North 3<sup>rd</sup> Street  
Capitol Annex Building  
Baton Rouge, Louisiana 70802

Mr. Zeringue,

This letter is to inform you that the SELA 18 Dwyer Road Intake Canal, from Dwyer Road Pumping Station to St. Charles Canal, contract number W912P8-08-C-0093, constructed under the Southeast Louisiana Urban Flood Control Project, has been completed in accordance with the Project Partnership Agreement (PPA) executed between the U.S. Army Corps of Engineers and the Coastal Protection and Restoration Authority of Louisiana on January 16, 2009. The contract was declared substantially complete on October 31, 2013. A final inspection was performed December 17, 2013 and was completed satisfactorily. This fulfills our obligations as part of the agreement and your office now becomes responsible for the operation and maintenance of the project. In accordance with the PPA, the as-built construction drawings are enclosed and we will provide you with the operations, maintenance, repair, replacement, and rehabilitation requirements in the near future.

Please feel free to contact me at (504) 862-1501 with any questions or concerns.

Sincerely,

A handwritten signature in black ink that reads "Herbert J. Wagner".

Herbert J. Wagner, PMP  
Senior Project Manager  
New Orleans District
