

Special thanks to all the Leaders before us, which culminated in today's significant milestone in the MTG project.

Also special thanks to the state, levee districts, and parishes for the local investment made to date along the project alignment to afford risk reduction to the citizens of Terrebonne and Lafourche Parishes.

We celebrate the execution of the PPA, which will enable the MTG project to proceed with additional construction.

## Morganza to the Gulf of Mexico, Louisiana (MTG) Project

### Ceremonial Signing of the Project Partnership Agreement (PPA)

18 January 2022

## Morganza to the Gulf

MTG Project  
Alignment

# Morganza to the Gulf of Mexico, Louisiana (MTG) Project

## **Purpose:**

Hurricane and Storm Damage Risk Reduction

## **Project Description:**

A 98-mile alignment consisting of earthen levees, 22 floodgates, 23 environmental control structures, 10 roadway/railroad gates, fronting protection for pump stations, and a lock complex on the Houma Navigation Canal consisting of a lock and an adjacent sector gate.
