Corps Postpones Aug. 6 Public Meeting

NEW ORLEANS - The U.S. Army Corps of Engineers, New Orleans District, has postponed a public meeting scheduled for Wednesday, Aug. 6, 2008 at Lynn Oaks School, in Braithwaite, LA. The meeting will be rescheduled at a later date.

“We have some challenging situations to address in St. Bernard. We realize the community would like more information, but right now we are taking the necessary measures to conduct additional analysis before providing a proposed action,” said Christophor Gilmore, senior project manager for St. Bernard Parish. “Everyday, we continue to work towards our goal of providing the 100-year level of protection by 2011 throughout the system.”

The meeting was set to discuss details of the Bayou Dupre Control Structure, Caernarvon Floodwall, Chalmette Loop Levee and the Inner Harbor Navigation Canal surge protection barrier as discussed in Individual Environmental Reports 8, 9, 10 and 11 Tier 2 Borgne. An update on the project’s status was recently provided at a public meeting on Jul. 17 at CF Rowley Alternative School in Chalmette.

Visit www.nolaenvironmental.gov for additional information on the NEPA process and Individual Environmental Reports in the greater New Orleans area.
