Suite 200
Belle Chasse, Louisiana 70037

Dear Messrs. Bradberry and Cormier:

You are hereby informed that the following contract for the New Orleans to Venice (NOV), Hurricane and Storm Damage Risk Reduction System, NOV-07b, Fronting Protection at Sunrise and Grand Liard Pump Stations (W912P8-11-D-0004, Task Order 0005), in Plaquemines Parish, Louisiana, has been completed. This project was completed by the United States pursuant to Public Law (PL) 109-148, Department of Defense, Emergency Supplemental Appropriations to Address Hurricanes in the Gulf of Mexico, and Pandemic Influenza Act of 2006; PL 109-234, Emergency Supplemental Appropriations Act for Defense, the Global War on Terror, and Hurricane Recovery of 2006; PL 110-252, 6th Emergency Supplemental Appropriations Act of 2008; the Flood Control Act of 1962; and the Water Resources Development Act of 1986.

This Notification of Construction Completion (NCC) is for all contractual features associated with the construction contract for the fronting protection, pumping station work and scour protection, which can function independently, but does not include the side slopes of the access ramp near Sta 1073+00 and the protected south side staging area between Sta 1084+00 and 1093+80 at Sunrise Pump Station. A subsequent NCC will be issued for these features upon completion of work for these construction items.

A final inspection of the project was conducted on September 19, 2017, and all contract work was performed in accordance with the approved plans and specifications and meets the 50-year event design criteria. For operations and maintenance guidance, refer to the operation, maintenance, repair, replacement, and rehabilitation (OMRR&R) manual, Volume 1 and Volume 2, previously provided to you. Please note, Volume 3 of the OMRR&R manual will be provided in the near future which will provide the final OMRR&R information associated with the above referenced contract. Please see enclosed the following items:

- a. Redline As-built contract drawings – Enclosure 1
- b. NCC survey data – Enclosure 2
- c. Final inspection attendance roster – Enclosure 3

The punch list items identified during the pre-final inspection have been corrected and inspected by representatives of the Plaquemines Parish Government (PPG), the Coastal Protection and Restoration Authority Board (CPRAB) of Louisiana, and by our office. The results of an assessment of the high moisture areas between the walls at Grand Liard Pump Station will be provided at a later date.

The NCC survey data includes a table presenting elevations at stations that can be compared to the construction plans. The data represents a centerline profile of the floodwall. The survey data reflects the elevations of the floodwall are within the tolerance of the elevations required by the construction plans.

In accordance with the Project Partnership Agreement between the Government, CPRAB, and PPG (hereinafter collectively referred to as the “Non-Federal Sponsors”) dated June 22, 2012, the Non-Federal Sponsors shall undertake the OMRR&R of this completed project feature of the New Orleans to Venice, Hurricane and Storm Damage Risk Reduction System in Plaquemines Parish. In this connection, maintenance is construed as keeping all completed works in working condition to serve the purpose for which they were designed. In accordance with Section 1010 of Public Law 113-121, you may appeal this notification.

If there are any questions concerning your OMRR&R responsibilities, please call Ms. Amy Powell, Operations Manager, Completed Works, or Ms. Karen Clement, Assistant Operations Manager, Completed Works, at (504) 862-2241 and (504) 862-2313, respectively.

Sincerely,

Michael Clancy
Colonel, U.S. Army
District Engineer
