Operations Division  
Operations Manager, Completed Works

7R618

Mr. Johnny B. Bradberry  
Chairman  
Coastal Protection and Restoration Authority  
Board of Louisiana  
150 Terrace Avenue  
Baton Rouge, Louisiana 70802

Dear Mr. Bradberry:

You are hereby informed that the floodwall and floodgates functional portion of the contract for the West Bank and Vicinity (WBV), Hurricane and Storm Damage Risk Reduction System, Mississippi River Levee (MRL), WBV-MRL 2.2, C/ (W912P8-14-C-0002), in Plaquemines Parish, Louisiana, has been completed. This project was completed by the United States pursuant to Public Law 109-234, Emergency Supplemental Appropriations Act for Defense, the Global War on Terror, and Hurricane Recovery 2006.

This Notification of Construction Completion (NCC) is for all contractual features associated with the construction contract for the floodwall and floodgates functional portion, but does not include the levee functional portion of the contract, as continued turf establishment efforts remain. A subsequent NCC will be issued for the levee functional portion of this construction contract upon established turf.

A final inspection of the project was conducted on December 18, 2017, and all contract work was performed in accordance with the approved plans and specifications and meets the 100-year event design criteria. For operations and maintenance guidance, refer to the interim operation, maintenance, repair, replacement, and rehabilitation (OMRR&R) manual, Volume 1 and Volume 2, previously provided to you. Please note, Volume 3 of the OMRR&R manual will be provided in the near future which will provide the final OMRR&R information associated with above referenced contract. Please see enclosed the following items:

- a. As-built contract drawings – Enclosure 1
- b. Notification of Construction Completion (NCC) survey data – Enclosure 2
- c. Final inspection attendance roster – Enclosure 3

The punch list items identified during the pre-final inspection have been corrected and inspected by representatives of the Coastal Protection and Restoration Authority Board of Louisiana (CPRAB), formerly known as Coastal Protection and Restoration Authority (CPRA), and by our office.

The NCC survey data includes a table presenting elevations at stations that can be compared to the construction plans. The data represents a centerline profile of the floodgate/floodwall. The survey data reflects the elevations of the floodgate/floodwall are within the tolerance of the elevations required by the construction plans.

In accordance with the Project Partnership Agreement between the Department of the Army and CPRA (now known as CPRAB) dated November 6, 2008, CPRAB shall undertake the OMRR&R of this completed project feature of the West Bank and Vicinity, Hurricane and Storm Damage Risk Reduction System in Plaquemines Parish. In this connection, maintenance is construed as keeping all completed works in working condition to serve the purpose for which they were designed. In accordance with section 1010 of Public Law 113-121, you may appeal this notification.

If there are any questions concerning your OMRR&R responsibilities, please call Ms. Amy Powell, Operations Manager, Completed Works, or Ms. Karen Clement, Assistant Operations Manager, Completed Works, at (504) 862-2241 and (504) 862-2313, respectively.

Sincerely,

Michael Clancy  
Colonel, U.S. Army  
District Engineer
