Commencing on or about 17 November 2023 and continuing through approximately 15 January 2024, the U.S. Government Contract Cutterhead Dredge EMIL KURTZ will perform dredging operations in Berwick Bay Harbor, from approximately Mile 120 to Mile 121.1 of the Atchafalaya River.

The dredge will work 24 hours a day, 7 days a week, and will deposit dredged material through a combination of floating and submerged pipelines in the deep water of the Atchafalaya River.

Besides dredging equipment, there are numerous work and support vessels associated with this dredging operation. The dredge will be monitoring VHF Marine Channels 13 and 16.

Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made.

The point of contact with the New Orleans District is Tim Connell at (504) 862-2630 or Anh Nguyen at (504) 862-2153.
