NAVIGATION BULLETIN NO. 19-08

BAYOU LAFOURCHE
PORT FOURCHON

Commencing on or about 24 Jan 2019 and continuing until approximately 26 Mar 2019, the U.S. Government Contract Cutterhead Dredge ROBERT M. WHITE will be working in Bayou Lafourche (Port Fourchon) from approximately mile 3.4 to mile -1.7.

The Dredge will work 24 hours a day, 7 days a week, and will deposit material in a designated disposal area located on the east side of the channel using floating and submerged pipelines. Besides dredging equipment, there are numerous work and support vessels associated with this dredging operation.

Mariners must contact on-site Harbor Police on VHF channel 13 for passing arrangements. Once transit is authorized, mariners must travel at their slowest safe speed to minimize wake and insure operational safety. The Dredge can be contacted on either VHF channel 13 or 16.

The point of contact with the New Orleans District is Raymond Newman at (504) 862-2050.

STEVEN G. PATORNO
