PROJECT PARTNERSHIP AGREEMENT
BETWEEN
THE DEPARTMENT OF THE ARMY
AND
THE COASTAL PROTECTION AND RESTORATION AUTHORITY OF
LOUISIANA
FOR
THE SOUTHEAST LOUISIANA, LOUISIANA PROJECT
JEFFERSON AND ORLEANS PARISHES

THIS AGREEMENT is entered into this __ day of ___ , ___ by

and between the Department of the Army (hereinafter the “Government”), represented by
the Assistant Secretary of the Army (Civil Works) and the Coastal Protection and
Restoration Authority of Louisiana (hereinafter the “Non-Federal Sponsor”), represented
by its Chairman.

WITNESSETH, THAT:

WHEREAS, Section 108 of the Fiscal Year 1996 Energy and Water Development
Appropriations Act, Public Law 104-46 (hereinafter “Section 108”), and Section 533 of
the Water Resources Development Act of 1996, Public Law 104-303, as amended
(hereinafter “Section 533”), authorized construction of the Southeast Louisiana,
Louisiana Project in Jefferson and Orleans Parishes, Louisiana (hereinafter the “Project”,
as defined in Article I.A. of this Agreement);

WHEREAS, on January 16, 1997, the Government and Jefferson Parish,
Louisiana (hereinafter “JP”) entered into a Project Cooperation Agreement (hereinafter a
“PCA”) for construction of certain work in the Jefferson Parish portion of the Project,
and such PCA was amended on March 24, 2005;

WHEREAS, on January 23, 1997, the Government and the Sewerage and Water
Board of New Orleans (hereinafter “SWBNO”) entered into a PCA for construction of
certain work in the Orleans Parish portion of the Project;

WHEREAS, JP and SWBNO have served as the non-Federal sponsors for the work
implemented in their respective parishes under those PCAs without any direct involvement
of the State of Louisiana and CPRA;

WHEREAS, the Project will be constructed within the territorial jurisdiction of JP
and within the boundaries of Jefferson Parish and within the territorial jurisdiction of
SWBNO and within the boundaries of the City of New Orleans and Orleans Parish;

WHEREAS, the Non-Federal Sponsor plans to enter into a Cooperative Endeavor
Agreement or other sub-agreements, in accordance with the Constitution and laws of the
State of Louisiana, with JP and SWBNO for the performance of the Non-Federal Sponsor’s
obligations under this Agreement;
WHEREAS, under the Flood Control and Coastal Emergencies (FC&CE) heading, Chapter 3, Title I, Division B of Public Law 109-148 (119 STAT. 2762-2763) (hereinafter the "3rd FC&CE Supplemental") $224,755,000 was provided to accelerate completion of unconstructed portions of the Project at full Federal expense within that funding (hereinafter the "Accelerated Work", as defined in Article I.B. of this Agreement);

WHEREAS, under the Construction heading, Chapter 3, Title III of Public Law 110-252 (122 STAT. 2348-2349) (hereinafter the "6th Construction Supplemental") $838,000,000 was provided for implementation of elements of the Project within the geographic perimeter of the West Bank and Vicinity and Lake Pontchartrain and Vicinity projects at a 35 percent non-Federal cost share (hereinafter the "65/35 Cost-Shared Work", as defined in Article I.C. of this Agreement);

WHEREAS, under the Construction heading, Division B, Title I, Chapter 3 of Public Law 110-329 (hereinafter the "7th Construction Supplemental"), the Secretary of the Army is directed to use $450,000,000 of the funds appropriated under that heading to fund the estimated amount of the non-Federal cash contribution that will be financed for the 65/35 Cost-Shared Work in accordance with the provisions of Section 103(k) of the Water Resources Development Act (WRDA) of 1986, Public Law 99-662, over a period of 30 years from the date of completion of the Project or separable elements thereof;

WHEREAS, the Government and the Non-Federal Sponsor desire to enter into a Project Partnership Agreement (hereinafter the "Agreement") for the Project; that will be implemented with funds provided in the 3rd FC&CE Supplemental, 6th Construction Supplemental, and the 7th Construction Supplemental;

WHEREAS, the purposes of this Agreement are to set forth the obligations of the Government and the Non-Federal Sponsor regarding the construction and the operation, maintenance, repair, rehabilitation, and replacement of the Project; to establish a cooperative relationship that promotes full and timely communication and sharing of information; to foster a harmonious relationship that promotes reaching mutually agreeable sound decisions expeditiously; to create and maintain a working environment where trust and teamwork facilitates the resolution of issues and minimizes disputes; and to achieve the shared goals of the parties to complete expeditiously a project that provides for interior drainage of runoff from rainfall with a ten percent annual exceedance probability;

WHEREAS, non-Federal interests have provided lands, easements, rights-of-way, relocations, and improvements required on lands, easements, and rights-of-way to enable the disposal of dredged or excavated material, for implementation of the Accelerated Work and 65/35 Cost-Shared Work for which credit has not been afforded previously under the Project and that are eligible for credit toward the non-Federal share of the costs of the 65/35 Cost-Shared Work in accordance with the provisions of this Agreement;
WHEREAS, the Non-Federal Sponsor, or other non-Federal interest on behalf of the Non-Federal Sponsor, has performed or may perform work for the Project that the Government has determined or may determine to be integral to the Project (hereinafter referred to as "work-in-kind", as defined in Article I.P. of this Agreement) for which credit has not been afforded previously under the Project and the value of such work-in-kind is eligible for credit toward the non-Federal share of the costs of the 65/35 Cost-Shared Work in accordance with the provisions of this Agreement;

WHEREAS, pursuant to La. R.S. 49:213.1 and in accordance with the requirements of the Department of Defense, Emergency Supplemental Appropriations to Address Hurricanes in the Gulf of Mexico, and Pandemic Influenza Act of 2006, the Non-Federal Sponsor was established, authorized, and empowered by the State of Louisiana on May 25, 2006 to carry out any and all functions necessary to serve as the single state entity responsible to act as the local sponsor for construction, operation, and maintenance of all of the hurricane, storm damage reduction, and flood control projects in areas under its jurisdiction, including the greater New Orleans and southeast Louisiana area, and pursuant to La. R.S. 49:213.4(A)(1), represents the State of Louisiana's position in policy implementation relative to the protection, conservation, and restoration of the coastal area of the state through oversight of coastal restoration, hurricane protection, and infrastructure projects and programs;

WHEREAS, in accordance with Section 1030) of the Water Resources Development Act of 1986, Public Law 99-662, as amended (33 U.S.C. 2213G), the Secretary of the Army shall not initiate the Accelerated Work or the 65/35 Cost-Shared Work until the non-Federal sponsor has entered into a written agreement to furnish its required cooperation for such work, to pay 100 percent of the operation, maintenance, repair, replacement, and rehabilitation costs of completed elements of the Project, and to hold and save the United States free from damages due to the construction or operation and maintenance of the Project, except for damages due to the fault or negligence of the United States or its contractors;

WHEREAS, the Non-Federal Sponsor has determined that the Government's established peer review process has met the requirements of La. R.S. 38:247(D) and (E) and La. R.S. 49:213.4(E) enacted by the Legislature of Louisiana; and

WHEREAS, the Government and Non-Federal Sponsor have the full authority and capability to perform in accordance with the terms of this Agreement.

NOW, THEREFORE, the Government and the Non-Federal Sponsor agree as follows:
ARTICLE I - DEFINITIONS

A. The term "Project" shall mean the approved features for the Southeast Louisiana, Louisiana Project to provide flood damage reduction and interior drainage for Orleans and Jefferson Parishes in southeast Louisiana implemented or to be implemented under Section 108 and Section 533, as generally described in the following decision documents:

4. The Southeast Louisiana Project, Jefferson Parish, East Bank Basin, Louisiana, Section 533(d) Report, dated September 2002 and approved on February 27, 2004;
5. The Southeast Louisiana Project, Jefferson Parish, East of Harvey Canal Basin, Louisiana, Section 533(d) Report, dated September 2002 and approved on February 26, 2004;
6. The Southeast Louisiana Project, Orleans Parish, Peoples Subbasin, Section 533(d) Report, dated July 2002 and approved on March 5, 2004; and

B. The term "Accelerated Work" shall mean all work on the Project implemented in accordance with the terms of this Agreement at full Federal expense using 3rd FC&CE Supplemental funds. To the extent that 3rd FC&CE Supplemental funds are available, such work consists of the following:

1. Soniat Canal - Veterans to Canal #3 and Gap below Veterans, Jefferson Parish;
2. Westwego Pump Station Diesel Engine, Jefferson Parish;
3. Westminster/Lincolnshire Pump Station Backup Generators, Jefferson Parish;
4. Bridge Over Elmwood Canal at Kawanee, Jefferson Parish;
5. Bridge Over Elmwood Canal at W. Esplanade, Jefferson Parish;
6. Grand Cross Canal at Lapalco, Jefferson Parish;
7. Gardere Canal, Phase II, Jefferson Parish;
8. Dwyer Road Pump Station Intake Canal, Orleans Parish; and
9. Florida Avenue, Phase 1, Orleans Parish.
C. The term “65/35 Cost-Shared Work” shall mean all work on the Project implemented in accordance with the terms of this Agreement using 6th Construction Supplemental and 7th Construction Supplemental funds but not including the Accelerated Work. Such work consists of the following work and any work described in paragraph B. of this Article, or any portion thereof, that is not implemented at full Federal expense.

1. Soniat Canal - West Napoleon to Lynette, Jefferson Parish;
2. Pump to the River Discharge Tubes (Except the portion constructed under the PCA between the Government and Jefferson Parish, Louisiana, as amended on March 24, 2005) including the stilling basin and the levee crossing, Jefferson Parish;
3. Soniat Canal – W. Metairie to Lynette, Jefferson Parish;
4. Pump to the River Pump Station including the intake culvert, Jefferson Parish;
5. Mayronne Canal, Jefferson Parish;
6. Two Mile Canal, Phase II, Jefferson Parish;
7. Justice & Oil Co. Canals, Jefferson Parish;
8. Industry Canal, Jefferson Parish;
9. Trapp Canal, Jefferson Parish;
10. Gardere Canal, Phase III and Murphy Canal, Jefferson Parish;
11. Florida Avenue, Phase 2, Orleans Parish;
12. Uptown Jeff Avenue, Phase 1 - Claiborne to Dryades, Orleans Parish;
13. Uptown Jeff Avenue, Phase 2 - Dryades to Constance, Orleans Parish;
14. Uptown Napoleon Avenue, Phase 1 - Claiborne to Carondelet, Orleans Parish;
15. Uptown Napoleon Avenue, Phase 2 - Carondolet to Constance, Orleans Parish;
16. Uptown S. Claiborne, Phase 1 - Monticello to Leonidas, Orleans Parish;
17. Uptown S. Claiborne, Phase 2 - Leonidas to Lowerline, Orleans Parish;
18. Florida Avenue, Phase 3, Orleans Parish;
19. Florida Avenue, Phase 4, Orleans Parish; and
20. Uptown Louisiana Avenue - Claiborne to Constance, Orleans Parish.

D. The term “New Work” shall mean a combination of the Accelerated Work and the 65/35 Cost-Shared Work.

E. The term “total costs of the Accelerated Work” shall mean the sum of all costs incurred by the Government in accordance with the terms of this Agreement directly related to design and construction of the Accelerated Work; and the pre-Agreement planning and design costs that are allocated by the Government to the Accelerated Work. The term does not include any costs for operation, maintenance, repair, rehabilitation, or replacement of the Project; any costs to correct deferred or deficient maintenance; any costs of betterments under Article I.F.2. of this Agreement; or any costs incurred by the Non-Federal Sponsor.
F. The term “total costs of the 65/35 Cost-Shared Work” shall mean the sum of all costs incurred by the Non-Federal Sponsor and the Government in accordance with the terms of this Agreement as allocated by the Government to the 65/35 Cost-Shared Work. Subject to the provisions of this Agreement, the term shall include, but is not necessarily limited to: the Government’s design costs; the Government’s engineering and design costs during construction; the Non-Federal Sponsor’s and the Government’s costs of investigations to identify the existence and extent of hazardous substances in accordance with Article XV.A.1. of this Agreement; the Government’s costs of historic preservation activities in accordance with Article XVIII.A. and Article XVIII.B.1. of this Agreement; the Government’s actual construction costs and the costs of alteration, lowering, raising, or replacement and attendant removal of existing railroad bridges and approaches thereto; the Government’s supervision and administration costs; the Non-Federal Sponsor’s and the Government’s costs of participation in the Coordination Team in accordance with Article V.F. of this Agreement; the Non-Federal Sponsor’s personnel costs for participation on the Project Delivery Team for 65/35 Cost Shared Work in accordance with Article V.G. of this Agreement; the Government’s costs of contract dispute settlements or awards; the value of lands, easements, rights-of-way, relocations, and improvements required on lands, easements, and rights-of-way to enable the disposal of dredged or excavated material that are required for construction, operation, and maintenance of the 65/35 Cost-Shared Work for which the Government affords credit in accordance with Article IV of this Agreement; the value of lands, easements, rights-of-way, and relocations that are provided by the Non-Federal Sponsor for the construction, operation, and maintenance of the Accelerated Work for which the Government affords credit in accordance with Article IV of this Agreement; the costs of work-in-kind for which credit is afforded in accordance with Article II.C.3. of this Agreement; and the Non-Federal Sponsor’s and the Government’s costs of audit in accordance with Article XI.B. and Article XI.C. of this Agreement that are allocated by the Government to the 65/35 Cost-Shared Work. The term does not include any costs for operation, maintenance, repair, rehabilitation, or replacement of the Project; any costs for services provided by an independent third party for issue resolution under Article VII of this Agreement; any costs of dispute resolution under Article VIII of this Agreement; the Government’s costs for data recovery activities associated with historic preservation in accordance with Article XVIII.B.2. and Article XVIII.B.3. of this Agreement; any costs to correct deferred or deficient maintenance; any costs of betterments under Article II.F.2. of this Agreement; or the Non-Federal Sponsor’s costs of negotiating this Agreement.

G. The term “period of construction” shall mean the time from the date the Government issued the solicitation for the first contract for construction for the New Work to the date that construction of the New Work is complete, as determined by the U.S. Army Engineer, New Orleans (hereinafter the “District Engineer”) after consultation with the Non-Federal Sponsor, or the date that construction under this Agreement is terminated in accordance with Article XIV or Article XV of this Agreement, whichever is earlier.
H. The term "functional portion of the New Work" shall mean a portion of the New Work for which construction has been completed, can function independently, and meets the ten percent annual exceedance probability design criteria as determined in writing by the District Engineer after consultation with the Non-Federal Sponsor, although the remainder of the New Work is not complete.

I. The term "fiscal year" shall mean one year beginning on October 1 and ending on September 30.

J. The term "relocation" shall mean providing a functionally equivalent facility to the owner of a utility, cemetery, highway, railroad (excluding existing railroad bridges and approaches thereto), or public facility when such action is authorized in accordance with applicable legal principles of just compensation. Providing a functionally equivalent facility may take the form of alteration, lowering, raising, or replacement and attendant demolition of the affected facility or part thereof.

K. The term "pre-Agreement planning and design costs" shall mean all costs that were incurred by the Government prior to the effective date of this Agreement for planning and design of the New Work.

L. The term "financial obligations for construction" shall mean the financial obligations of the Government, and the costs for work-in-kind, as determined by the Government, that result or would result in costs that are or would be included in total costs of the 65/35 Cost-Shared Work except for obligations pertaining to the provision of lands, easements, and rights-of-way, the performance of relocations, and the construction of improvements required on lands, easements, and rights-of-way to enable the disposal of dredged or excavated material.

M. The term "non-Federal proportionate share" shall mean the ratio of the sum of the Non-Federal Sponsor's total contributions required by Article II.C.2.a. of this Agreement, as determined by the Government, to the financial obligations for construction, as projected by the Government.

N. The term "Federal program funds" shall mean funds provided by a Federal agency, other than the Department of the Army, plus any non-Federal contribution required as a matching share therefor.

O. The term "betterment" shall mean a difference in the construction of an element of the Project that results from the application of standards that the Government determines exceed those that the Government would otherwise apply to the construction of that element. The term does not include any construction for items of work not included in the Project as defined in paragraph A. of this Article.
P. The term “work-in-kind” shall mean any non-Federal work performed or to be performed for the Project after the dates of the reports referred to in Section 533 that is determined to be a compatible and integral part of the Project and eligible for credit consistent with the terms of this Agreement. The term includes such non-Federal work for the Accelerated Work; 65/35 Cost-Shared Work; and work accomplished under the PCA between the Government and Jefferson Parish, Louisiana, as amended on March 24, 2005, and the PCA between the Government and the Sewerage and Water Board of New Orleans, dated January 23, 1997, for which credit will not be afforded under such PCAs; as well as the planning, engineering, design, construction and supervision and administration related thereto, and other activities associated with such non-Federal work. The term does not include the construction of betterments or the provision of lands, easements, and rights-of-way, the performance of relocations, or the construction of improvements required on lands, easements, and rights-of-way to enable the disposal of dredged or excavated material associated with the work-in-kind.

Q. The term “separable element” shall mean a portion of the Project which is physically separable from other portions of the Project; and which achieves hydrologic effects, or produces physical or economic benefits, which are separately identifiable from those produced by other portions of the Project.

ARTICLE II - OBLIGATIONS OF THE GOVERNMENT AND THE NON-FEDERAL SPONSOR

A. The Government, subject to the availability of funds appropriated by the Congress of the United States (hereinafter the “Congress”), shall design and construct the Accelerated Work, except for work-in-kind, at 100 percent Federal expense, applying those procedures usually applied to Federal projects, in accordance with this Agreement and applicable Federal laws, regulations, and policies. The Government, subject to the availability of funds appropriated by the Congress and using those funds provided in the 6th Construction Supplemental and 7th Construction Supplemental and any funds provided by the Non-Federal Sponsor, shall design and construct the 65/35 Cost-Shared Work, except for the work-in-kind, applying those procedures usually applied to Federal projects, in accordance with this Agreement and applicable Federal laws, regulations, and policies.

1. If, after the effective date of this Agreement, the Non-Federal Sponsor desires to prepare and provide design work for either the Accelerated Work or the 65/35 Cost-shared Work, the Non-Federal Sponsor shall provide timely written notice to the Government of such desire. Upon written approval by the Government for the Non-Federal Sponsor to prepare and provide the design work specified in the Non-Federal Sponsor’s written notification, the Non-Federal Sponsor expeditiously shall prepare and provide to the Government the specified design, or portion thereof, for use in constructing the Accelerated Work or the 65/35 Cost-Shared Work. If, prior to the effective date of this Agreement, the Government had agreed to the Non-Federal Sponsor performing any specific design work,
the requirements for written notification by the Non-Federal Sponsor and written approval by the Government shall not apply. In either circumstance, the Government shall review such design, or portion thereof, to ensure compliance with applicable Federal laws, regulations, and policies including those related to bidability, constructability, operability and environmental acceptability. The Government, in its sole discretion, may accept, modify, or reject such design, or any portion thereof, for use in constructing the Accelerated Work or the 65/35 Cost-Shared Work. Prior to commencement of review by the Government of such design, the Non-Federal Sponsor shall provide a written certification and warranty to the Government that the design provided by the Non-Federal Sponsor is free from any legal encumbrances and use restrictions, including, but not limited to, any intellectual property rights and outstanding licensing requirements. For any design where the Government has already conducted its review, the Non-Federal Sponsor shall provide, within 30 calendar days after the effective date of this Agreement, its written certification and warranty to the Government that the design provided by the Non-Federal Sponsor is free from any legal encumbrances and use restrictions, including, but not limited to, any intellectual property rights and outstanding licensing requirements. The Government shall include in total costs of the 65/35 Cost-Shared Work and afford credit toward the Non-Federal Sponsor's share of total costs of the 65/35 Cost-Shared Work for the costs of such work-in-kind for design, subject to the conditions and limitations of paragraph A.2. of this Article and paragraph C.3. of this Article.

2. If the Non-Federal Sponsor fails to provide the specified design or portion thereof for the Accelerated Work or the 65/35 Cost-Shared Work, or the Government determines that the design, or any portion thereof, provided by the Non-Federal Sponsor is inadequate for any reason and the Non-Federal Sponsor does not correct such inadequacies in a timely manner after written notice from the Government, the Government, subject to the availability of funds, may design the Accelerated Work or the 65/35 Cost-Shared Work or complete the design of the Accelerated Work or the 65/35 Cost-Shared Work. The Non-Federal Sponsor acknowledges that the Government may, as appropriate, adjust or withhold work-in-kind credit for such inadequate design.

3. The Government shall afford the Non-Federal Sponsor reasonable opportunity to review and comment on the solicitations for all contracts, including relevant plans and specifications, prior to the Government's issuance of such solicitations. To the extent possible, the Government shall afford the Non-Federal Sponsor reasonable opportunity to review and comment on all proposed contract modifications, including change orders. In any instance where providing the Non-Federal Sponsor with notification of a contract modification is not possible prior to execution of the contract modification, the Government shall provide such notification in writing at the earliest date possible. To the extent possible, the Government also shall afford the Non-Federal Sponsor reasonable opportunity to review and comment on all contract claims prior to resolution thereof. The Government shall consider in good faith the comments of the Non-Federal Sponsor and provide timely responses thereto using the Government's existing or comparable record keeping system for comment documentation and management but the contents of
solicitations, award of contracts or commencement of construction using the Government's own forces, execution of contract modifications, resolution of contract claims, and performance of all work on the New Work shall be exclusively within the control of the Government, except for the work-in-kind.

4. The Government shall require in any contract concerning the New Work that the contractor shall comply with all approved designs in constructing any element thereof. The Government shall not release any contractor for the New Work or issue any notification in accordance with paragraph E. of this Article, until the construction complies fully with all Government approved designs, as determined by the Government. For any component of the New Work covered by a warranty, in the event of failure or deficiency of such component, the Non-Federal Sponsor may request the Government to demand the contractor to correct the failure or deficiency. Upon receiving such a request and if the Government agrees that there is a failure or deficiency under the warranty clause, the Government shall make such demand and exercise all authority possessed by the Government to ensure that the contractor corrects any such failure or deficiency. The Government shall consider in good faith the comments and requests of the Non-Federal Sponsor regarding any failure or deficiency under the warranty clause, but the determination of whether a failure or deficiency exists shall be exclusively the Government's.

5. Prior to the determination by the District Engineer that the New Work or functional portion thereof is complete, the Government and Non-Federal Sponsor shall conduct a joint walk-through inspection and each may note any additional items as a punch-list.

6. At the time the District Engineer furnishes the contractor with the Government's Written Notice of Acceptance of Completed Work for each contract awarded by the Government for the New Work, the District Engineer shall furnish a copy thereof to the Non-Federal Sponsor.

B. In accordance with the provisions of Article III of this Agreement, the Non-Federal Sponsor shall provide the lands, easements, and rights-of-way required for construction, operation, and maintenance of the Accelerated Work that are owned, claimed, or controlled by the Non-Federal Sponsor and such lands, easements, and rights-of-way that are owned by any other non-Federal governmental entity. All other lands, easements, and rights-of-way required for construction, operation, and maintenance of the Accelerated Work shall be provided by the Non-Federal Sponsor or the Government in accordance with the provisions of Article III of this Agreement.

C. The Non-Federal Sponsor shall contribute 35 percent of that portion of the total costs of the 65/35 Cost-Shared Work funded under the 6th Construction Supplemental, as determined by the Government, in accordance with the provisions of
this paragraph. As of the effective date of this Agreement, such contribution is projected to be $451,200,000.

1. In accordance with Article III of this Agreement, the Non-Federal Sponsor shall provide all lands, easements, and rights-of-way, including those required for relocations, the borrowing of material, and the disposal of dredged or excavated material, shall perform or ensure performance of all relocations, and shall construct improvements required on lands, easements, and rights-of-way to enable the disposal of dredged or excavated material that the Government determines to be required or to be necessary for construction, operation, and maintenance of the 65/35 Cost-Shared Work.

2. The Non-Federal Sponsor shall provide a contribution of funds as determined below:

   a. If the Government projects at any time that the collective value of the Non-Federal Sponsor’s contributions listed in the next sentence will be less than the Non-Federal Sponsor’s required share of total costs of the 65/35 Cost-Shared Work, the Government shall determine the amount of funds that would be necessary to meet the Non-Federal Sponsor’s required share without considering the credit the Government projects will be afforded for the work-in-kind pursuant to paragraph C.3. of this Article. The Government shall determine the amount of funds that would be necessary by subtracting from the Non-Federal Sponsor’s required share of total costs of the 65/35 Cost-Shared Work the collective value of the following: (1) the value of the lands, easements, rights-of-way, relocations, and improvements required on lands, easements, and rights-of-way to enable the disposal of dredged or excavated material (hereinafter “LERRD”) required for construction, operation, and maintenance of the 65/35 Cost-Shared Work for which the Government affords credit in accordance with Article IV of this Agreement; (2) the value of lands, easements, rights-of-way, and relocations that are provided by the Non-Federal Sponsor for the construction, operation, and maintenance of the Accelerated Work for which the Government affords credit in accordance with Article IV of this Agreement; and (3) the value of the Non-Federal Sponsor’s contribution under Article V, Article XI, and Article XV.A.1. of this Agreement.

   b. The Non-Federal Sponsor shall provide funds in the amount determined by this paragraph in accordance with Article VI.B. of this Agreement. To determine the contribution of funds the Non-Federal Sponsor shall provide, the Government shall reduce the amount determined in accordance with paragraph C.2.a. of this Article by the amount of credit the Government projects will be afforded for the work-in-kind pursuant to paragraph C.3. of this Article.

3. The Government shall include in total costs of the 65/35 Cost-Shared Work and afford credit toward the Non-Federal Sponsor’s share of total costs of the 65/35 Cost-Shared Work for the costs of work-in-kind, subject to the conditions and limitations of this paragraph.
a. The Government shall not include in total costs of the 65/35 Cost-Shared Work nor afford credit for work-in-kind attributable to the Project until the Non-Federal Sponsor provides the Government with written consent from the non-Federal interest that provided such work-in-kind for the Project that the Government may afford credit for the value of such work-in-kind toward the Non-Federal Sponsor’s share of costs for the 65/35 Cost-Shared Work in accordance with the provisions of this Agreement.

b. The Non-Federal Sponsor in a timely manner shall provide the Government with such documents as are sufficient to enable the District Engineer to determine the amount of costs for work-in-kind to be included in total costs of the 65/35 Cost-Shared Work.

c. The Non-Federal Sponsor shall provide the Government with any as-built drawings for the completed work-in-kind, or portion thereof, and work-in-kind shall be subject to an on-site inspection and determination by the District Engineer that the work was completed in accordance with Corps of Engineers standards and procedures, was accomplished in a satisfactory manner, is suitable for inclusion in the Project, and that credit for such work-in-kind was not previously afforded against the Project.

d. Costs for work-in-kind that may be eligible for inclusion in total costs of the 65/35 Cost-Shared Work and for which credit may be afforded pursuant to the provisions of Article II.C.2.b. of this Agreement shall be subject to an audit in accordance with Article XI.C. of this Agreement to determine the reasonableness, allocability and allowability of such costs.

e. Costs for work-in-kind that may be eligible for inclusion in total costs of the 65/35 Cost-Shared Work and for which credit may be afforded pursuant to this Agreement are not subject to interest charges, nor are they subject to adjustment to reflect changes in price levels between the time the work-in-kind was completed and the time the costs are included in total costs of the 65/35 Cost-Shared Work.

f. The Non-Federal Sponsor must comply with applicable Federal labor laws covering non-Federal construction, including, but not limited to, 40 U.S.C. 3141-3148 and 40 U.S.C. 3701-3708 (revising, codifying and enacting without substantive change the provisions of the Davis-Bacon Act (formerly 40 U.S.C. 276a et seq.), the Contract Work Hours and Safety Standards Act (formerly 40 U.S.C. 327 et seq.) and the Copeland Anti-Kickback Act (formerly 40 U.S.C. 276c)). The Non-Federal Sponsor acknowledges that the Government may, as appropriate, adjust or withhold credit for such work-in-kind to reflect any payment that should have been made by the Non-Federal Sponsor or any of its agents or contractors pursuant to these laws.
g. The Government shall not include in total costs of the 65/35 Cost-Shared Work nor afford credit for any costs for work-in-kind that exceed the least of the following amounts as determined by the Government: (a) the Government’s estimate of the costs of the work-in-kind if the work had been accomplished by the Government; (b) the amount of funds that would be necessary to meet the Non-Federal Sponsor’s required share as determined in accordance with paragraph C.2.a. of this Article; or (c) the actual costs of the work-in-kind subject to the conditions and limitations of paragraphs C.3.a. through C.3.f. of this Article.

4. Notwithstanding any other provision of this Agreement, the Non-Federal Sponsor shall not be entitled to reimbursement of any costs for work-in-kind that exceed the amount of costs included in total costs of the 65/35 Cost-Shared Work for which credit is afforded for the work-in-kind as determined in accordance with paragraph C.3.g. of this Article.

5. Upon the conclusion of the period of construction and in accordance with provisions of Article VI.C. of this Agreement, the Government, subject to the availability of funds, shall reimburse the Non-Federal Sponsor for the value of LERRD, or provide a refund to the Non-Federal Sponsor for any excess contribution of funds, if the collective value of the following contributions are determined by the Government to exceed the non-Federal share of the 65/35 Cost-Shared Work: (a) the value of the Non-Federal Sponsor’s contributions under paragraph C.1. of this Article, as determined in accordance with Article IV of this Agreement; (b) the value of lands, easements, rights-of-way, and relocations that are provided by the Non-Federal Sponsor for the construction, operation, and maintenance of the Accelerated Work as determined in accordance with Article IV of this Agreement; (c) the Non-Federal Sponsor’s contribution of funds provided under paragraph C.2.b. of this Article; and (d) the value of the Non-Federal Sponsor’s contributions under Article V, Article XI, and Article XV.A.1. of this Agreement.

D. When the District Engineer determines that the New Work, or a functional portion of the New Work, is complete and meets the ten percent annual exceedance probability design criteria, after following the procedures of Article II.A.5. of this Agreement, the District Engineer shall so notify the Non-Federal Sponsor in writing and furnish the Non-Federal Sponsor with a final Operation, Maintenance, Repair, Rehabilitation, and Replacement Manual (hereinafter the “OMRR&R Manual”) or, if the final OMRR&R Manual is not available, an interim OMRR&R Manual for the entire New Work or such functional portion. Upon such notification, the Government also shall furnish to the Non-Federal Sponsor a copy of all final as-built drawings for the entire New Work or such functional portion if such drawings are available. Not later than 60 calendar days after such notification by the Government that the entire New Work is complete, the Government shall furnish the Non-Federal Sponsor with the final OMRR&R Manual and all final as-built drawings for the entire New Work. In the event the final OMRR&R Manual or all final as-built drawings for the entire New Work cannot be completed within the 60 calendar days, the Government shall provide written notice to
the Non-Federal Sponsor, and the Government and the Non-Federal Sponsor shall negotiate an acceptable completion date for furnishing such documents. Further, after completion of construction for the New Work, copies of all of the Government’s Written Notices of Acceptance of Completed Work for construction items that have not been provided previously shall be provided to the Non-Federal Sponsor.

E. Upon notification from the District Engineer in accordance with paragraph D. of this Article, after following the procedures in Article II.A.5. of this Agreement, the Non-Federal Sponsor shall operate, maintain, repair, rehabilitate, and replace the entire New Work, or functional portion of the New Work as the case may be, in accordance with Article IX of this Agreement.

F. The Non-Federal Sponsor may request the Government to perform or provide, on behalf of the Non-Federal Sponsor, the services (hereinafter the “additional work”) described in this paragraph. Such requests shall be in writing and shall describe the additional work requested to be performed or provided. If in its sole discretion the Government elects to perform or provide the requested additional work or any portion thereof, it shall so notify the Non-Federal Sponsor in a writing that sets forth any applicable terms and conditions, which must be consistent with this Agreement. In the event of conflict between such a writing and this Agreement, this Agreement shall control. The Non-Federal Sponsor shall be solely responsible for all costs of the additional work performed or provided by the Government under this paragraph and shall pay all such costs in accordance with Article VI.D. of this Agreement.

1. Acquisition of lands, easements, and rights-of-way; performance of relocations; or construction of improvements required on lands, easements, and rights-of-way to enable the disposal of dredged or excavated material for the 65/35 Cost-Shared Work. Notwithstanding acquisition of lands, easements, and rights-of-way, performance of relocations, or construction of improvements by the Government, the Non-Federal Sponsor shall be responsible, as between the Government and the Non-Federal Sponsor, for any costs of cleanup and response in accordance with Article XV of this Agreement.

2. Inclusion of betterments in the construction of the New Work. In the event the Government elects to include any such betterments, the Government shall not include the costs of such betterments in either total costs of the Accelerated Work or total costs of the 65/35 Cost-Shared Work.

G. Not less than once each year the Non-Federal Sponsor shall inform affected interests of the extent of protection afforded by the Project.

H. The Non-Federal Sponsor agrees to participate in and comply with applicable Federal floodplain management and flood insurance programs.
I. The Non-Federal Sponsor shall comply with Section 402 of the Water Resources Development Act of 1986, as amended (33 U.S.C. 701b-12), which requires a non-Federal interest to prepare a floodplain management plan within one year after the date of signing this Agreement, and to implement such plan not later than one year after completion of construction of the Project. The plan shall be designed to reduce the impacts of future flood and coastal events in the project area, including but not limited to, addressing those measures to be undertaken by non-Federal interests to preserve the level of flood and coastal storm damage protection provided by the Project. The Non-Federal Sponsor shall provide an information copy of the plan to the Government upon its preparation.

J. The Non-Federal Sponsor shall publicize floodplain information in the area concerned and shall provide this information to zoning and other regulatory agencies for their use in adopting regulations, or taking other actions, to prevent unwise future development and to ensure compatibility with protection levels provided by the Project.

K. The Non-Federal Sponsor, by prescribing and enforcing regulations or other means, shall prevent obstructions, encroachments, new developments, or the addition of facilities on the Project, or on the lands, easements, and rights-of-way determined by the Government to be required for the construction, operation and maintenance of such work, that could reduce the level of protection for the Project or hinder operation and maintenance of the Project, or interfere with the Project's proper function.

L. The Government shall conduct independent peer review of the New Work in accordance with existing Federal law, regulations and policies.

M. Upon request, each party shall provide the other with any information or documents concerning the Project as soon as possible, consistent with applicable State or Federal laws, regulations, and guidance.

N. The Non-Federal Sponsor shall not use Federal Program funds to meet any of its obligations under this Agreement unless the Federal agency that provides the funds determines that the funds are authorized to be used to carry out the Project. Furthermore, unless such determination is made no amount shall be included in total costs of the 65/35 Cost-Shared Work, no credit shall be afforded, and no reimbursement shall be provided, as applicable, for the cost or value of any of the following contributions that were provided, acquired, or performed using such funds: (1) lands, easements, or rights-of-way; (2) relocations; (3) improvements required on lands, easements, and rights-of-way to enable the disposal of dredged or excavated material; or (4) work-in-kind.

ARTICLE III - LANDS, EASEMENTS, AND RIGHTS-OF-WAY, RELOCATIONS AND DISPOSAL AREA IMPROVEMENTS
A. The Government, after consultation with the Non-Federal Sponsor, shall determine the lands, easements, and rights-of-way required for construction, operation, and maintenance of the New Work, including those required for relocations, the borrowing of material, and the disposal of dredged or excavated material, and shall determine the schedule for acquisition and provision thereof. As soon as practicable, the Government shall provide the Non-Federal Sponsor with written descriptions, including appropriate maps, of such required lands, easements, and rights-of-way, in detail sufficient to enable the Non-Federal Sponsor to fulfill its obligations under this Article. The maps provided by the Government shall depict the boundaries of such required lands, easements, and rights-of-way if boundary information is reasonably available to the Government. After the Government provides the Non-Federal Sponsor such written descriptions and maps, such lands, easements, and rights-of-way shall be obtained, acquired, and provided in accordance with the provisions of this Article.

1. Except as provided in paragraph A.2. of this Article, prior to the issuance of the solicitation for any Government contract for construction of the New Work, or prior to the Government initiating construction of a portion of the New Work using the Government’s own forces, the Non-Federal Sponsor shall acquire all lands, easements, and rights-of-way the Government determines the Non-Federal Sponsor must provide for that work and shall provide the Government with authorization for entry thereto. Furthermore, prior to the end of the period of construction, the Non-Federal Sponsor shall acquire all lands, easements, and rights-of-way required for construction, operation, and maintenance of the New Work, as set forth in such descriptions, and shall provide the Government with authorization for entry thereto.

2. Private Lands Exception to General Acquisition Responsibility for Accelerated Work. Not later than 30 calendar days after the Government provides to the Non-Federal Sponsor the written descriptions and maps of the lands, easements, and rights-of-way determined by the Government to be required solely for the construction, operation, and maintenance of the Accelerated Work, the Non-Federal Sponsor may request in writing that the Government acquire all or specified portions of such lands, easements, and rights-of-way that are owned by private interests. Upon such request, the Government shall acquire such lands, easements, and rights-of-way applying Federal laws, policies, and procedures.

3. For all lands, easements and rights-of-way required for the construction, operation, and maintenance of the Accelerated Work that are acquired by the Government in accordance with the provisions of this Agreement, the Government shall acquire such lands, easements, and rights-of-way in the name of the Non-Federal Sponsor except, if acquired by eminent domain, the Government shall convey all of its right, title and interest to the Non-Federal Sponsor by quitclaim deed or deeds. The Non-Federal Sponsor shall accept delivery of such deed or deeds.
4. The Non-Federal Sponsor shall ensure that lands, easements, and rights-of-way acquired by the Non-Federal Sponsor or the Government for the New Work as well as those lands, easements and rights-of-way that the Non-Federal Sponsor provided through an authorization for entry are retained in public ownership for uses compatible with the authorized purposes of the Project for the duration of the required interest as determined by the Government in accordance with Article III of this Agreement.

B. The Government, after consultation with the Non-Federal Sponsor, shall determine the relocations necessary for construction, operation, and maintenance of the 65/35 Cost-Shared Work, including those necessary to enable the borrowing of material or the disposal of dredged or excavated material, and shall determine the schedule for performance thereof. As soon as practicable, the Government shall provide the Non-Federal Sponsor with written descriptions, including appropriate maps, of such relocations in detail sufficient to enable the Non-Federal Sponsor to fulfill its obligations under this paragraph, and shall provide the Non-Federal Sponsor with a written notice to proceed with such relocations. Prior to the issuance of the solicitation for any Government contract for construction of the 65/35 Cost-Shared Work, or prior to the Government incurring any financial obligations for construction of a portion of the 65/35 Cost-Shared Work using the Government’s own forces, the Non-Federal Sponsor shall prepare or ensure the preparation of plans and specifications for, and perform or ensure the performance of, all relocations the Government determines to be necessary for that work. Furthermore, prior to the end of the period of construction, the Non-Federal Sponsor shall perform or ensure performance of all relocations as set forth in such descriptions.

C. The Government, after consultation with the Non-Federal Sponsor, shall determine the improvements required on lands, easements, and rights-of-way to enable the disposal of dredged or excavated material associated with construction, operation, and maintenance of the 65/35 Cost-Shared Work, and shall determine the schedule for performance thereof. Such improvements may include, but are not necessarily limited to, retaining dikes, wasteweirs, bulkheads, embankments, monitoring features, stilling basins, and de-watering pumps and pipes. As soon as practicable, the Government shall provide the Non-Federal Sponsor with written descriptions, including appropriate maps, of such improvements in detail sufficient to enable the Non-Federal Sponsor to fulfill its obligations under this paragraph, and shall provide the Non-Federal Sponsor with a written notice to proceed with construction of such improvements. Prior to the issuance of the solicitation for any Government contract for construction of the 65/35 Cost-Shared Work, or prior to the Government incurring any financial obligations for construction of a portion of the 65/35 Cost-Shared Work using the Government’s own forces, the Non-Federal Sponsor shall prepare or ensure the preparation of plans and specifications for all improvements the Government determines to be required for the disposal of dredged or excavated material under that contract, submit such plans and specifications to the Government for approval, and provide or ensure such improvements are provided in accordance with the approved plans and specifications. Furthermore, prior to the end of the period of construction, the
Non-Federal Sponsor shall provide or ensure all improvements set forth in such descriptions are provided.

D. Acquisition of lands, easements, and rights-of-way required for construction, operation, and maintenance of the New Work, including those required for relocations, the borrowing of material, or the disposal of dredged or excavated material, shall be in accordance with the applicable provisions of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Public Law 91-646, as amended (42 U.S.C. 4601-4655), and the Uniform Regulations contained in 49 C.F.R. Part 24, and the party acquiring the real estate interest shall inform all affected persons of applicable benefits, policies, and procedures in connection with said Act.

ARTICLE IV - CREDIT FOR VALUE OF LANDS, EASEMENTS, RIGHTS-OF-WAY, RELOCATIONS AND DISPOSAL AREA IMPROVEMENTS

A. The Government shall include in total costs of the 65/35 Cost-Shared Work and afford credit toward the Non-Federal Sponsor's share of total costs of the 65/35 Cost-Shared Work for the value of the lands, easements, and rights-of-way that the Non-Federal Sponsor must provide pursuant to Article III.A. of this Agreement that are required for construction, operation, and maintenance of the 65/35 Cost-Shared Work; for the value of the relocations that the Non-Federal Sponsor must perform or for which it must ensure performance pursuant to Article III.B. of this Agreement that are necessary for construction, operation, and maintenance of the 65/35 Cost-Shared Work; and for the value of the improvements required on lands, easements, and rights-of-way to enable the disposal of dredged or excavated material that the Non-Federal Sponsor must provide pursuant to Article III.C. of this Agreement that are required for construction, operation, and maintenance of the 65/35 Cost-Shared Work. Furthermore, the Government shall include in total costs of the 65/35 Cost-Shared Work and afford credit toward the Non-Federal Sponsor's share of total costs of the 65/35 Cost-Shared Work for the value of the lands, easements, rights-of-way, and relocations provided by the Non-Federal Sponsor that are required for construction, operation, and maintenance of the Accelerated Work as determined in accordance with Article III of this Agreement. However, in addition to the conditions and limitations contained in Article II.N. of this Agreement, no amount shall be included in total costs of the 65/35 Cost-Shared Work, no credit shall be afforded, and no reimbursement shall be provided for the value of any lands, easements, rights-of-way, relocations, or improvements required on lands, easements, and rights-of-way to enable the disposal of dredged or excavated material that have been provided previously as an item of cooperation for the Project or another Federal project.

B. The Non-Federal Sponsor in a timely manner shall provide the Government with such documents as are sufficient to enable the Government to determine the value of any contribution provided pursuant to Article III.A., Article III.B., or Article III.C. of this Agreement. Upon receipt of such documents, the Government in a timely manner shall
determine the value of such contributions for the purpose of including such value in total
costs of the 65/35 Cost-Shared Work and for determining the amount of credit to be
afforded in accordance with the provisions of this Agreement.

C. For the purposes of determining the value to be included in total costs of the
65/35 Cost-Shared Work and the amount of credit to be afforded in accordance with this
Agreement and except as otherwise provided in paragraph G. of this Article, the value of
lands, easements, and rights-of-way shall be the fair market value of the real property
interests, plus incidental costs of acquiring those interests, as determined in accordance with
the provisions of this paragraph.

1. Date of Valuation.

   a. New Work. The fair market value of lands, easements, or rights-of-way owned by the Non-Federal Sponsor on the effective date of this Agreement shall be
the fair market value of such real property interests as of the date the Non-Federal Sponsor provides the Government with authorization for entry thereto. The fair market value of
lands, easements, or rights-of-way acquired by the Non-Federal Sponsor after the effective
date of this Agreement shall be the fair market value of such real property interests at the
time the interests are acquired.

   b. Work-in-Kind. The fair market value of lands, easements, or
rights-of-way required for the work-in-kind shall be the fair market value of such real
property interests as of the date the Non-Federal Sponsor, or others on behalf of the Non-
Federal Sponsor, awarded the first construction contract for the work-in-kind, or, if the Non-
Federal Sponsor, or others on behalf of the Non-Federal Sponsor, performed the
construction with its own forces, the date that the Non-Federal Sponsor, or others on behalf
of the Non-Federal Sponsor, began construction of the work-in-kind.

2. General Valuation Procedure. Except as provided in paragraph C.3. or
paragraph C.5. of this Article, the fair market value of lands, easements, or rights-of-way
shall be determined in accordance with the provisions of this paragraph.

   a. The Non-Federal Sponsor shall obtain, for each real property
interest, an appraisal that is prepared by a qualified appraiser who is acceptable to the Non-
Federal Sponsor and the Government. For lands, easements, or rights-of-way provided by
the Non-Federal Sponsor for the New Work, the Non-Federal Sponsor shall provide the
Government with the appraisal no later than 6 months after the Non-Federal Sponsor
provides the Government with an authorization for entry for such real property interest.
The appraisal must be prepared in accordance with the applicable rules of just
compensation, as specified by the Government. The fair market value shall be the amount
set forth in the Non-Federal Sponsor’s appraisal, if such appraisal is approved by the
Government. In the event the Government does not approve the Non-Federal Sponsor’s
appraisal, the Non-Federal Sponsor may obtain a second appraisal, and the fair market value shall be the amount set forth in the Non-Federal Sponsor's second appraisal, if such appraisal is approved by the Government. In the event the Government does not approve the Non-Federal Sponsor's second appraisal, the Non-Federal Sponsor chooses not to obtain a second appraisal, or the Non-Federal Sponsor does not provide the first appraisal as required in this paragraph, the Government shall obtain an appraisal, and the fair market value shall be the amount set forth in the Government's appraisal, if such appraisal is approved by the Non-Federal Sponsor. In the event the Non-Federal Sponsor does not approve the Government's appraisal, the Government, after consultation with the Non-Federal Sponsor, shall consider the Government's and the Non-Federal Sponsor's appraisals and determine an amount based thereon, which shall be deemed to be the fair market value.

b. Where the amount paid or proposed to be paid by the Non-Federal Sponsor or others on behalf of the Non-Federal Sponsor, for the real property interest exceeds the amount determined pursuant to paragraph C.2.a. of this Article, the Government, at the request of the Non-Federal Sponsor, shall consider all factors relevant to determining the value for crediting purposes under this Agreement and, in its sole discretion, after consultation with the Non-Federal Sponsor, may approve in writing an amount greater than the amount determined pursuant to paragraph C.2.a. of this Article, but not to exceed the amount actually paid or proposed to be paid. If the Government approves such an amount, the value for crediting purposes under this Agreement shall be the lesser of the approved amount or the amount paid by the Non-Federal Sponsor, or others on behalf of the Non-Federal Sponsor, but no less than the amount determined pursuant to paragraph C.2.a. of this Article.

3. Eminent Domain Valuation Procedure. For lands, easements, or rights-of-way acquired by eminent domain proceedings instituted after the effective date of this Agreement, the Non-Federal Sponsor, prior to instituting such proceedings, shall submit to the Government notification in writing of its intent to institute such proceedings and its appraisal, or two appraisals when required, of the specific real property interests to be acquired in such proceedings. The Government shall have 60 calendar days after receipt of such a notice and appraisal(s) within which to review the appraisal(s), if not previously approved by the Government in writing.

a. If the Government previously has approved the appraisal in writing, or if the Government provides written approval of, or takes no action on, the appraisal within such 60 day period, the Non-Federal Sponsor shall use the amount set forth in such appraisal, or the higher amount set forth in such appraisals, as the estimate of just compensation for the purpose of instituting the eminent domain proceeding.

b. If the Government provides written disapproval of the appraisal, including the reasons for disapproval, within such 60 day period, the Government and the Non-Federal Sponsor shall consult in good faith to promptly resolve the issues or areas of disagreement that are identified in the Government's written disapproval. If, after such
good faith consultation, the Government and the Non-Federal Sponsor agree as to an appropriate amount, then the Non-Federal Sponsor shall use that amount as the estimate of just compensation for the purpose of instituting the eminent domain proceeding. If, after such good faith consultation, the Government and the Non-Federal Sponsor cannot agree as to an appropriate amount, then the Non-Federal Sponsor may use the amount set forth in its appraisal(s) as the estimate of just compensation for the purpose of instituting the eminent domain proceeding.

c. For lands, easements, or rights-of-way acquired by eminent domain proceedings instituted in accordance with paragraph C.3. of this Article, fair market value shall be either the amount of the court award for the real property interests taken, to the extent the Government determined such interests are required for construction, operation, and maintenance of the New Work, or the amount of any stipulated settlement or portion thereof that the Government approves in writing.

4. Incidental Costs. For lands, easements, or rights-of-way required for the New Work that were acquired by the Non-Federal Sponsor within a five year period preceding the effective date of this Agreement, or at any time after the effective date of this Agreement, the value of the interest shall include the documented incidental costs of acquiring the interest, as determined by the Government, subject to an audit in accordance with Article XI.C. of this Agreement to determine reasonableness, allocability, and allowability of costs. However, for any lands, easements, or rights-of-way required for the New Work that were acquired by a non-Federal interest within a five year period preceding the effective date of an agreement under which such lands, easements, or rights-of-way were required to be provided by the non-Federal interest, or at any time after the effective date of such agreement, the value shall include the documented incidental costs of acquiring the interest, as determined by the Government, subject to an audit in accordance with Article XI.C. of this Agreement to determine reasonableness, allowability, and allocability of such costs. In the event the Government modifies its determination made pursuant to Article III.A. of this Agreement, the Government shall afford credit for the documented incidental costs associated with preparing to acquire the lands, easements, or rights-of-way identified in the original determination, subject to an audit in accordance with Article XI.C. of this Agreement to determine reasonableness, allocability, and allowability of costs. Such incidental costs shall include, but not necessarily be limited to, closing and title costs, appraisal costs, survey costs, attorney’s fees, plat maps, mapping costs, abstracting costs, costs of negotiations, relocation assistance services, actual amounts expended for payment of any relocation assistance benefits provided in accordance with Article III.D. of this Agreement, and other payments by the Non-Federal Sponsor for items that are generally recognized as compensable, and required to be paid, by applicable state law due to the acquisition of a real property interest in accordance with Article III of this Agreement. The value of the interests provided by the Non-Federal Sponsor in accordance with Article III.A. of this Agreement shall also include the documented costs of obtaining appraisals pursuant to paragraph C.2. of this Article, as determined by the Government, and subject to an audit in accordance with Article XI.C.
of this Agreement to determine reasonableness, allocability, and allowability of costs. The Government, pursuant to Article II.C.2.a. of this Agreement, shall afford credit for incidental costs that are determined to be reasonable, allocable, and allowable.

5. Waiver of Appraisal. Except as required by paragraph C.3. of this Article, the Government may waive the requirement for an appraisal pursuant to this paragraph if it determines that an appraisal is unnecessary because the valuation is uncomplicated and that the estimated fair market value of the real property interest is $10,000 or less based upon a review of available data. In such event, the Government and the Non-Federal Sponsor must agree in writing to the value of such real property interest in an amount not in excess of $10,000.

D. After consultation with the Non-Federal Sponsor, the Government shall determine the value of relocations in accordance with the provisions of this paragraph.

1. For a relocation other than a highway, the value shall be only that portion of relocation costs that the Government determines is necessary to provide a functionally equivalent facility, reduced by depreciation consistent with applicable principles of just compensation, and by the salvage value of any removed items.

2. For a relocation of a highway, the value shall be only that portion of relocation costs that would be necessary to accomplish the relocation in accordance with the design standard that the State of Louisiana would apply under similar conditions of geography and traffic load, reduced by the salvage value of any removed items.

3. Relocation costs shall include, but not necessarily be limited to, actual costs of performing the relocation; planning, engineering and design costs; supervision and administration costs; and documented incidental costs associated with performance of the relocation, as determined by the Government. Relocation costs shall not include any costs due to betterments, as determined by the Government, nor any additional cost of using new material when suitable used material is available. Relocation costs shall be subject to an audit in accordance with Article XI.C. of this Agreement to determine reasonableness, allocability, and allowability of costs. The Government, pursuant to Article II.C.2.a. of this Agreement, shall afford credit for such costs that are determined to be reasonable, allocable, and allowable.

E. The value of the improvements required on lands, easements, and rights-of-way to enable the disposal of dredged or excavated material shall be the costs of the improvements, as determined by the Government, subject to an audit in accordance with Article XI.C. of this Agreement to determine reasonableness, allocability, and allowability of costs. The Government, pursuant to Article II.C.2.a. of this Agreement, shall afford credit for such costs that are determined to be reasonable, allocable, and allowable. Such costs shall include, but not necessarily be limited to, actual costs of providing the improvements; planning, engineering and design costs; supervision and administration
costs; and documented incidental costs associated with providing the improvements, but shall not include any costs due to betterments, as determined by the Government.

F. Any credit afforded under the terms of this Agreement for the value of relocations, or improvements required on lands, easements, and rights-of-way to enable the disposal of dredged or excavated material, performed within the Project boundaries is subject to satisfactory compliance with applicable Federal labor laws covering non-Federal construction, including, but not limited to, 40 U.S.C. 3141-3148 and 40 U.S.C. 3701-3708 (revising, codifying and enacting without substantive change the provisions of the Davis-Bacon Act (formerly 40 U.S.C. 276a et seq.), the Contract Work Hours and Safety Standards Act (formerly 40 U.S.C. 327 et seq.) and the Copeland Anti-Kickback Act (formerly 40 U.S.C. 276c)). The Non-Federal Sponsor acknowledges that the Government may, as appropriate, adjust or withhold credit for such relocations or improvements to reflect any payment that should have been made by the Non-Federal Sponsor or any of its agents or contractors pursuant to these laws.

G. Where the Government, on behalf of the Non-Federal Sponsor pursuant to Article II.F.1. of this Agreement, acquires lands, easements, or rights-of-way, performs relocations, or constructs improvements required on lands, easements, or rights-of-way to enable the disposal of dredged or excavated material, the value to be included in total costs of the 65/35 Cost-Shared Work and the amount of credit to be afforded pursuant to the provisions of Article II.C.2.a. of this Agreement shall be the costs of such work performed or provided by the Government that are paid by the Non-Federal Sponsor in accordance with Article VI.D. of this Agreement. In addition, the value to be included in total costs of the 65/35 Cost-Shared Work and the amount of such credit to be afforded pursuant to the provisions of Article II.C.2.a. of this Agreement shall include the documented costs incurred by the Non-Federal Sponsor in accordance with the terms and conditions agreed upon in writing pursuant to Article II.F.1. of this Agreement subject to an audit in accordance with Article XI.C. of this Agreement to determine reasonableness, allocability, and allowability of costs. The Government, pursuant to Article II.C.2.a. of this Agreement, shall afford credit for such costs that are determined to be reasonable, allocable, and allowable.

ARTICLE V - COORDINATION TEAM

A. To provide for consistent and effective communication, the Non-Federal Sponsor and the Government, not later than 30 calendar days after the effective date of this Agreement, shall each appoint three named senior representatives to a Coordination Team. Thereafter, the Coordination Team shall meet regularly until the end of the period of construction. The Government’s Project Manager and a counterpart named by the Non-Federal Sponsor shall co-chair the Coordination Team.
B. The Government's Project Manager and the Non-Federal Sponsor's counterparts shall keep the Coordination Team informed of the progress of construction and of significant pending issues and actions, and shall seek the views of the Coordination Team on matters that the Coordination Team generally oversees.

C. Until the end of the period of construction, the Coordination Team shall generally oversee the New Work, including matters related to: plans and specifications; scheduling; real property and relocation requirements; real property acquisition, relocations, and improvements required on lands, easements, and rights-of-way to enable the disposal of dredged or excavated material including schedules for provision and performance by the Non-Federal Sponsor; contract awards and modifications; contract costs; the application of and compliance with 40 U.S.C. 3141-3148 and 40 U.S.C. 3701-3708 (revising, codifying and enacting without substantive change the provisions of the Davis-Bacon Act (formerly 40 U.S.C. 276a et seq.), the Contract Work Hours and Safety Standards Act (formerly 40 U.S.C. 327 et seq.) and the Copeland Anti-Kickback Act (formerly 40 U.S.C. 276c)) for relocations, improvements required on lands, easements, and rights-of-way to enable the disposal of dredged or excavated material, and the construction portion of the work-in-kind; the investigations to identify the existence and extent of hazardous substances in accordance with Article XV.A. of this Agreement; historic preservation activities in accordance with Article XVIII of this Agreement; the Government's cost projections; the costs included in total costs of the 65/35 Cost-Shared Work for the work-in-kind for which the Non-Federal Sponsor will be afforded credit as determined in accordance with Article II.C.3. of this Agreement; final inspection of the entire New Work or functional portion of the New Work; preparation of the proposed OMRR&R Manual; anticipated requirements and needed capabilities for performance of operation, maintenance, repair, rehabilitation, and replacement of the Project including issuance of permits; and other matters related to the New Work. This oversight of the New Work shall be consistent with a project management plan developed by the Government after consultation with the Non-Federal Sponsor.

D. The Coordination Team may make recommendations to the District Engineer on matters related to the New Work that the Coordination Team generally oversees, including suggestions to avoid potential sources of dispute. The Government in good faith shall consider the recommendations of the Coordination Team. The Government, having the legal authority and responsibility for construction of the New Work, except for the work-in-kind, has the discretion to accept or reject, in whole or in part, the Coordination Team's recommendations.

E. All comments submitted to the Coordination Team by the Non-Federal Sponsor's representatives, the resolution of such comments by the Coordination Team, or when applicable, the Coordination Team's recommendation on such comments and the District Engineer's decision related thereto shall be entered into the Government's existing or comparable record keeping system for comment documentation and management. For any comment submitted by the Non-Federal Sponsor that was not resolved by the
Coordination Team, the Government shall consult with the Non-Federal Sponsor prior to the District Engineer's decision regarding the Coordination Team's recommendation.

F. The Government's costs of participation in the Coordination Team shall be allocated between the total costs of the Accelerated Work and total costs of the 65/35 Cost-Shared Work, as determined by the Government, and shared in accordance with the provisions of this Agreement. The Non-Federal Sponsor's costs of participation in the Coordination Team shall be allocated between the total costs of the Accelerated Work and total costs of the 65/35 Cost-Shared Work, as determined by the Government. The Non-Federal Sponsor shall pay for its own costs of Coordination Team participation allocated to Accelerated Work. The Non-Federal Sponsor's costs for Coordination Team participation allocated to the 65/35 Cost-Shared Work shall be included in the total costs of the 65/35 Cost-Shared Work and shared in accordance with the provisions of this Agreement, subject to an audit in accordance with Article XI.C. of this Agreement to determine reasonableness, allocability, and allowability of such costs. The Government, pursuant to Article II.C.2.a. of this Agreement, shall afford credit for such costs that are determined to be reasonable, allocable, and allowable.

G. The Government and the Non-Federal Sponsor acknowledge that in certain instances it may be beneficial to designate certain Non-Federal Sponsor personnel to the Project Delivery Team, previously established by the Government, in order to obtain Non-Federal Sponsor input on select issues. To the extent that both parties agree that certain Non-Federal Sponsor personnel should participate on the Project Delivery Team, the Non-Federal Sponsor's personnel costs for such participation shall be allocated between the total costs of the Accelerated Work and total costs of the 65/35 Cost-Shared Work, as determined by the Government. The Non-Federal Sponsor shall pay for its own costs of Project Delivery Team participation allocated to Accelerated Work. The Non-Federal Sponsor’s personnel costs for Project Delivery Team participation allocated to the 65/35 Cost-Shared Work shall be included in the total costs of the 65/35 Cost-Shared Work and shared in accordance with the provisions of this Agreement, subject to an audit in accordance with Article XI.C. of this Agreement to determine reasonableness, allocability, and allowability of such costs. The Government, pursuant to Article II.C.2.a. of this Agreement, shall afford credit for such costs that are determined to be reasonable, allocable, and allowable.

ARTICLE VI - METHOD OF PAYMENT

A. In accordance with the provisions of this paragraph, the Government shall maintain current records and provide to the Non-Federal Sponsor current projections of costs; financial obligations; contributions provided by the parties; the value included in total costs of the 65/35 Cost-Shared Work for the LERRD for the 65/35 Cost-Shared Work; the costs included in total costs of the 65/35 Cost-Shared Work for the work-in-kind for which the Non-Federal Sponsor will be afforded credit as determined in accordance with Article II.C.3. of this Agreement; the value of the lands, easements and
rights-of-way for the Accelerated Work included in the total costs of the Accelerated Work for which the Non-Federal Sponsor will be afforded credit as determined in accordance with Article IV of this Agreement.

1. As of the effective date of this Agreement, total costs of the Accelerated Work are currently estimated to be $224,755,000; total costs of the 65/35 Cost-Shared Work are currently estimated to be $1,289,200,000; the value of the LERRD required for construction, operation, and maintenance of the 65/35 Cost-Shared Work for which the Government affords credit in accordance with Article IV of this Agreement is currently estimated to be $33,580,000; the value of lands, easements, rights-of-way, and relocations that are provided by the Non-Federal Sponsor for the construction, operation, and maintenance of the Accelerated Work for which the Government affords credit in accordance with Article IV of this Agreement is currently estimated to be $5,750,000; the amount of funds determined in accordance with Article II.C.2.a. of this Agreement is currently estimated to be $411,790,000; the Non-Federal Sponsor’s total contribution of funds required by Article II.C.2.b. of this Agreement is currently estimated to be $340,810,000 exclusive of any interest amount pursuant to paragraph B.4. of this Article; the costs included in total costs of the 65/35 Cost-Shared Work for the work-in-kind for which the Non-Federal Sponsor will be afforded credit as determined in accordance with Article II.C.3. of this Agreement is currently estimated to be $70,980,000; the Non-Federal Sponsor’s contribution of funds required by Article XVIII.B.3. of this Agreement is currently estimated to be $0; and the Government’s total financial obligations for the additional work to be incurred and the Non-Federal Sponsor’s contribution of funds for such costs required by Article II.F. of this Agreement is currently estimated to be $7,700,000. These amounts are estimates subject to adjustment by the Government, after consultation with the Non-Federal Sponsor, and are not to be construed as the total financial responsibilities of the Government and the Non-Federal Sponsor.

2. By April 15, 2009 and by each quarterly anniversary thereof until the conclusion of the period of construction and resolution of all relevant claims and appeals and eminent domain proceedings, the Government shall provide the Non-Federal Sponsor with a report setting forth all contributions provided to date and the current projections of the following: total costs of the Accelerated Work; total costs of the 65/35 Cost-Shared Work; the value of the LERRD required for construction, operation, and maintenance of the 65/35 Cost-Shared Work for which the Government affords credit in accordance with Article IV of this Agreement; the value of lands, easements, rights-of-way, and relocations that are provided by the Non-Federal Sponsor for the construction, operation, and maintenance of the Accelerated Work for which the Government affords credit in accordance with Article IV of this Agreement; the Non-Federal Sponsor’s total contribution of funds required by Article II.C.2.b. of this Agreement; the costs included in total costs of the 65/35 Cost-Shared Work for the work-in-kind for which the Non-Federal Sponsor will be afforded credit as determined in accordance with Article II.C.3. of this Agreement; the Non-Federal Sponsor’s total contribution of funds required by Article XVIII.B.3. of this Agreement; the total contribution of funds required from the
Non-Federal Sponsor for the upcoming quarter; and the Government’s total financial obligations for additional work incurred and the Non-Federal Sponsor’s contribution of funds for such costs required by Article II.F. of this Agreement.

B. The Non-Federal Sponsor shall provide the contributions of funds required by Article II.C.2. and Article XVIII.B.3. of this Agreement in accordance with the provisions of this paragraph.

1. Not less than 30 calendar days prior to the scheduled date for issuance of the solicitation for the first contract for construction or the first supply contract for borrow material, whichever is earlier, of the 65/35 Cost-Shared Work or commencement of construction of the 65/35 Cost-Shared Work using the Government’s own forces, the Government shall notify the Non-Federal Sponsor in writing of such scheduled date and the funds the Government determines to be required from the Non-Federal Sponsor to meet: (a) the non-Federal proportionate share of financial obligations for construction incurred prior to the commencement of the period of construction; (b) the projected non-Federal proportionate share of financial obligations for construction to be incurred in the first quarter less any projected work-in-kind credit afforded in accordance with Article II.C.2.b. of this Agreement that has not been previously afforded; and (c) the Non-Federal Sponsor’s share of the projected financial obligations for data recovery activities associated with historic preservation pursuant to Article XVIII.B.3. of this Agreement to be incurred in the first quarter. Except as provided in Article VI.B.4. of this Agreement, not later than such scheduled date, the Non-Federal Sponsor shall provide the Government with the full amount of such required funds by delivering a check payable to “FAO, USAED, New Orleans (B2)” to the District Engineer, or verifying to the satisfaction of the Government that the Non-Federal Sponsor has deposited such required funds in an escrow or other account acceptable to the Government, with interest accruing to the Non-Federal Sponsor, or by presenting the Government with an irrevocable letter of credit acceptable to the Government for such required funds, or by providing an Electronic Funds Transfer of such required funds in accordance with procedures established by the Government.

2. Thereafter, until the construction of the 65/35 Cost-Shared Work is complete, the Government shall notify the Non-Federal Sponsor in writing of the funds the Government determines to be required from the Non-Federal Sponsor, and the Non-Federal Sponsor shall provide such funds in accordance with the provisions of this paragraph.

a. For each contract for the 65/35 Cost-Shared Work where the Government projects it will make financial obligations for construction or financial obligations for data recovery activities associated with historic preservation pursuant to Article XVIII.B.3. of this Agreement, the Government shall notify the Non-Federal Sponsor in writing, no later than 60 calendar days prior to the scheduled date for issuance of the solicitation for such contract, of the funds the Government determines to be
required from the Non-Federal Sponsor to meet: (a) the projected *non-Federal proportionate share of financial obligations for construction* to be incurred for such contract less any projected *work-in-kind* credit afforded in accordance with Article II.C.2.b. of this Agreement that has not been previously afforded and (b) the Non-Federal Sponsor's share of the projected financial obligations for data recovery activities associated with historic preservation pursuant to Article XVIII.B.3. of this Agreement to be incurred for such contract. Except as provided in Article VI.B.4. of this Agreement, no later than such scheduled date, the Non-Federal Sponsor shall make the full amount of such required funds available to the Government through any of the payment mechanisms specified in paragraph B.1. of this Article.

b. Where the Government projects that it will make *financial obligations for construction* of the 65/35 *Cost-Shared Work* using the Government's own forces or financial obligations for data recovery activities associated with historic preservation pursuant to Article XVIII.B.3. of this Agreement using the Government's own forces, the Government shall notify the Non-Federal Sponsor in writing, no later than 60 calendar days prior to the beginning of each quarter in which the Government projects that it will make such financial obligations, of the funds the Government determines to be required from the Non-Federal Sponsor to meet: (a) the projected *non-Federal proportionate share of financial obligations for construction* using the Government's own forces for that quarter less any projected *work-in-kind* credit afforded in accordance with Article II.C.2.b. of this Agreement that has not been previously afforded and (b) the Non-Federal Sponsor's share of the projected financial obligations for data recovery activities associated with historic preservation pursuant to Article XVIII.B.3. of this Agreement using the Government's own forces for that quarter. Except as provided in Article VI.B.4. of this Agreement, no later than 30 calendar days prior to the beginning of that quarter, the Non-Federal Sponsor shall make the full amount of such required funds for that quarter available to the Government through any of the payment mechanisms specified in paragraph B.1. of this Article.

3. If the Government determines that additional funds will be needed from the Non-Federal Sponsor to cover the Non-Federal Sponsor's share of *financial obligations for construction* in the current quarter, the Government shall notify the Non-Federal Sponsor in writing of the additional funds required and provide an explanation of why additional funds are required. Except as provided in Article VI.B.4., the Non-Federal Sponsor shall provide, within 30 calendar days from receipt of such notice, the Government with the full amount of such additional required funds through any of the payment mechanisms specified in paragraph B.1. of this Article.

4. Notwithstanding any provision in paragraph B. of this Article to the contrary, the Government shall use up to $450,000,000 of the funds appropriated in the 7th Construction Supplemental to fund the cash contributions that the Non-Federal Sponsor, under the terms of this Agreement, otherwise would be required to pay to the Government provided that the Non-Federal Sponsor executes a payment agreement with
the Government prior to award of the first Federal construction contract for the 65/35 Cost-Shared Work pursuant to this Agreement (currently scheduled for April 2009) or prior to 180 calendar days after the effective date of this Agreement, whichever occurs first, to pay such contributions, with interest, in annual installments over a period of not more than thirty years from the date of completion of the Project or separable elements thereof. To the extent that the Government determines at any time that it does not have sufficient funds to allow the Non-Federal Sponsor to defer its contributions of funds pursuant to the provisions of this paragraph, the Non-Federal Sponsor shall provide such contributions to the Government during the period of construction in accordance with the provisions of this Article. Nothing herein shall constitute, nor be deemed to constitute, an obligation of future appropriations by the Congress. Further, nothing in this provision shall commit the Government to obligate funds beyond the amount of available appropriations.

C. Upon conclusion of the period of construction and resolution of all relevant claims and appeals and eminent domain proceedings, the Government shall conduct a final accounting for 65/35 Cost-Shared Work and furnish the Non-Federal Sponsor with written notice of the results of such final accounting. If outstanding relevant claims and appeals or eminent domain proceedings prevent a final accounting from being conducted in a timely manner, the Government shall conduct an interim accounting and furnish the Non-Federal Sponsor with written notice of the results of such interim accounting. Once all outstanding relevant claims and appeals and eminent domain proceedings are resolved, the Government shall amend the interim accounting to complete the final accounting and furnish the Non-Federal Sponsor with written notice of the results of such final accounting. The interim or final accounting, as applicable, shall determine total costs of the 65/35 Cost-Shared Work and the costs of any data recovery activities associated with historic preservation for the 65/35 Cost-Shared Work. In addition, for each set of costs, the interim or final accounting, as applicable, shall determine each party’s required share thereof, and each party’s total contributions thereto as of the date of such accounting.

1. Except as provided in Article VI.B.4. of this Agreement, should the interim or final accounting, as applicable, show that the Non-Federal Sponsor’s total required shares of total costs of the 65/35 Cost-Shared Work and the costs of any data recovery activities associated with historic preservation for the 65/35 Cost-Shared Work exceed the Non-Federal Sponsor’s total contributions provided thereto, the Non-Federal Sponsor, no later than 90 calendar days after receipt of written notice from the Government, shall make a payment to the Government in an amount equal to the difference by delivering a check payable to “FAO, USAED, New Orleans (B2)” to the District Engineer or by providing an Electronic Funds Transfer in accordance with procedures established by the Government.

2. Should the interim or final accounting, as applicable, show that the total contribution of funds provided by the Non-Federal Sponsor for the 65/35 Cost-
Shared Work and the costs of any data recovery activities associated with historic preservation for the 65/35 Cost-Shared Work exceed the Non-Federal Sponsor’s total contribution of funds pursuant to Article II.C.2. of this Agreement, the Government, subject to the availability of funds and as limited by Article IV.A. and Article II.C.4. of this Agreement, shall refund or reimburse the excess amount to the Non-Federal Sponsor within 90 calendar days of the date of completion of such accounting. In the event the Non-Federal Sponsor is due a refund or reimbursement and funds are not available to refund or reimburse the excess amount to the Non-Federal Sponsor, the Government shall seek such appropriations as are necessary to make the refund or reimbursement.

D. The Non-Federal Sponsor shall provide the contribution of funds required by Article II.F. of this Agreement for additional work in accordance with the provisions of this paragraph. The provisions of Article VI.B.4. of this Agreement are not applicable to the contribution of such funds.

1. Not less than 30 calendar days prior to the scheduled date for the first financial obligation for additional work, the Government shall notify the Non-Federal Sponsor in writing of such scheduled date and of the full amount of funds the Government determines to be required from the Non-Federal Sponsor to cover the costs of the additional work. No later than 30 calendar days prior to the Government incurring any financial obligation for additional work, the Non-Federal Sponsor shall provide the Government with the full amount of the funds required to cover the costs of such additional work through any of the payment mechanisms specified in paragraph B.1. of this Article.

2. The Government shall draw from the funds provided by the Non-Federal Sponsor such sums as the Government deems necessary to cover the Government’s financial obligations for such additional work as they are incurred. If at any time the Government determines that the Non-Federal Sponsor must provide additional funds to pay for such additional work, the Government shall notify the Non-Federal Sponsor in writing of the additional funds required and provide an explanation of why additional funds are required. Within 30 calendar days from receipt of such notice, the Non-Federal Sponsor shall provide the Government with the full amount of such additional required funds through any of the payment mechanisms specified in paragraph B.1. of this Article.

3. At the time the Government conducts the interim or final accounting, as applicable, the Government shall conduct an accounting of the Government’s financial obligations for additional work incurred and furnish the Non-Federal Sponsor with written notice of the results of such accounting. If outstanding relevant claims and appeals or eminent domain proceedings prevent a final accounting of additional work from being conducted in a timely manner, the Government shall conduct an interim accounting of additional work and furnish the Non-Federal Sponsor with written notice of the results of such interim accounting. Once all outstanding relevant claims and appeals
and eminent domain proceedings are resolved, the Government shall amend the interim accounting of additional work to complete the final accounting of additional work and furnish the Non-Federal Sponsor with written notice of the results of such final accounting. Such interim or final accounting, as applicable, shall determine the Government’s total financial obligations for additional work and the Non-Federal Sponsor’s contribution of funds provided thereto as of the date of such accounting.

a. Should the interim or final accounting, as applicable, show that the total obligations for additional work exceed the total contribution of funds provided by the Non-Federal Sponsor for such additional work, the Non-Federal Sponsor, no later than 90 calendar days after receipt of written notice from the Government, shall make a payment to the Government in an amount equal to the difference by delivering a check payable to “FAO, USAED, New Orleans (B2)” to the District Engineer or by providing an Electronic Funds Transfer in accordance with procedures established by the Government.

b. Should the interim or final accounting, as applicable, show that the total contribution of funds provided by the Non-Federal Sponsor for additional work exceeds the total obligations for such additional work, the Government, subject to the availability of funds, shall refund the excess amount to the Non-Federal Sponsor within 90 calendar days of the date of completion of such accounting. In the event the Non-Federal Sponsor are due a refund and funds are not available to refund the excess amount to the Non-Federal Sponsor, the Government shall seek such appropriations as are necessary to make the refund.

ARTICLE VII – ISSUE RESOLUTION AND DISPUTE AVOIDANCE

A. The parties recognize that full communication and sharing of information to the extent practicable, consistent with applicable Federal or State law, regulations, and guidance, together with ongoing coordination and consultation, are key to expeditious and sound decision-making. The parties further recognize that decisions are made on a daily basis and issues should be resolved at the lowest organizational level to the extent possible. Similarly, the parties recognize that issue resolution under this Article may be a costly and time consuming process and should be utilized only for resolving significant issues.

B. In the event that the parties are unable to resolve an issue at a lower organizational level, at the request of the Chairman of the Coastal Protection and Restoration Authority of Louisiana (hereinafter the “Chairman”), the Division Engineer shall submit the matter to a mutually acceptable, qualified, independent third party for non-binding review and written comment within 14 calendar days. Each party shall pay an equal share of the costs for the services provided by the independent third party. Upon
receipt of comments from the independent third party, the Division Engineer and Chairman shall carefully consider those comments with a view to resolving the issue.

C. In the event that the Division Engineer and the Chairman are unable to resolve the issue within 7 calendar days following receipt of written comments from the independent third party, either the Division Engineer or the Chairman may elect to submit the issue for resolution to the Director of Civil Works of the U.S. Army Corps of Engineers (hereinafter the “Director”). The submission of an issue for resolution to the Director shall include a joint memorandum from the Division Engineer and Chairman explaining the issue and why the parties were unable to reach resolution. The Director shall carefully consider all information provided by the Division Engineer and Chairman as well as the comments from the independent third party. Within 14 calendar days of the receipt of the joint memorandum from the Division Engineer and Chairman, the Director shall render a written decision with a full explanation of the reasons for the decision.

D. Nothing in this Article alters or amends any applicable Federal or State law, regulation, or guidance, nor shall it negate the responsibility of each party to comply with any applicable Federal or State law, regulation, or guidance. Nothing in this Article excuses either party from performance pursuant to this Agreement.

ARTICLE VIII - DISPUTE RESOLUTION

As a condition precedent to a party bringing any suit for breach of this Agreement, that party must first notify the other party in writing of the nature of the purported breach and seek in good faith to resolve the dispute through negotiation. If the parties cannot resolve the dispute through negotiation, they may agree to a mutually acceptable method of non-binding alternative dispute resolution with a qualified third party acceptable to both parties. Each party shall pay an equal share of any costs for the services provided by such a third party as such costs are incurred. The existence of a dispute shall not excuse the parties from performance pursuant to this Agreement.

ARTICLE IX - OPERATION, MAINTENANCE, REPAIR, REHABILITATION, AND REPLACEMENT (OMRR&R)

A. As the single state entity responsible to act as the non-Federal sponsor for construction, operation, and maintenance of all hurricane, storm damage reduction, and flood damage reduction projects in the greater New Orleans and southeast Louisiana area, the Non-Federal Sponsor, at no cost to the Government and for so long as the Project remains authorized, shall operate, maintain, repair, rehabilitate, and replace all portions of the Project, that the District Engineer determines or determined to be complete in accordance with the provisions of the agreement with a non-Federal interest under which such work was constructed. The Non-Federal Sponsor shall conduct its operation,
maintenance, repair, rehabilitation, and replacement responsibilities in a manner compatible with the Project's authorized purposes and in accordance with applicable Federal and State laws as provided in such agreement and specific directions prescribed by the Government in the interim or final OMRR&R Manual and any subsequent amendments thereto. Nothing in this paragraph is intended to affect eligibility under Public Law 84-99 (33 U.S.C. 701n).

B. In the case of the New Work being implemented pursuant to this Agreement, upon receipt of the notification from the District Engineer in accordance with Article II.D. of this Agreement and after following the procedures of Article II.A.5. of this Agreement, the Non-Federal Sponsor, pursuant to Article II.E. of this Agreement, shall operate, maintain, repair, rehabilitate, and replace the entire New Work or functional portion of the New Work, at no cost to the Government. The Non-Federal Sponsor shall conduct its operation, maintenance, repair, rehabilitation, and replacement responsibilities in a manner compatible with the Project's authorized purposes and in accordance with applicable Federal and State laws as provided in Article XII of this Agreement and specific directions prescribed by the Government in the interim or final OMRR&R Manual and any subsequent amendments thereto. The Government shall allocate its costs for preparation of the OMRR&R Manual between the total costs of the Accelerated Work and total costs of the 65/35 Cost-Shared Work and the costs of the latter shall be shared in accordance with the provisions of this Agreement.

C. The Non-Federal Sponsor hereby gives the Government a right to enter, at reasonable times and in a reasonable manner, upon property that the Non-Federal Sponsor now or hereafter owns or controls for access to the Project for the purpose of inspection and, if necessary, for the purpose of completing, operating, maintaining, repairing, rehabilitating, or replacing the Project. If an inspection shows that the Non-Federal Sponsor for any reason is failing to perform its obligations under this Agreement, the Government shall send a written notice describing the non-performance to the Non-Federal Sponsor. If, after 30 calendar days from receipt of such written notice by the Government, the Non-Federal Sponsor continues to fail to perform, then the Government shall have the right to enter, at reasonable times and in a reasonable manner, upon property that the Non-Federal Sponsor now or hereafter owns or controls for the purpose of completing, operating, maintaining, repairing, rehabilitating, or replacing the Project. No completion, operation, maintenance, repair, rehabilitation, or replacement by the Government shall relieve the Non-Federal Sponsor of responsibility to meet the Non-Federal Sponsor's obligations as set forth in this Agreement, or to preclude the Government from pursuing any other remedy at law or equity to ensure faithful performance pursuant to this Agreement.

ARTICLE X – HOLD AND SAVE

The Non-Federal Sponsor shall hold and save the Government free from all damages arising from design, construction, operation, maintenance, repair, rehabilitation, and
replacement of the Project, except for damages due to the fault or negligence of the Government or its contractors.

ARTICLE XI - MAINTENANCE OF RECORDS AND AUDIT

A. Not later than 60 calendar days after the effective date of this Agreement, the Government and the Non-Federal Sponsor shall develop procedures for keeping books, records, documents, or other evidence pertaining to costs and expenses incurred pursuant to this Agreement. These procedures shall incorporate, and apply as appropriate, the standards for financial management systems set forth in the Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments at 32 C.F.R. Section 33.20. The Government and the Non-Federal Sponsor shall maintain such books, records, documents, or other evidence in accordance with these procedures and for a minimum of three years after completion of the accounting for which such books, records, documents, or other evidence were required. To the extent permitted under applicable Federal laws and regulations, the Government and the Non-Federal Sponsor shall each allow the other to inspect such books, records, documents, or other evidence.

B. In accordance with 32 C.F.R. Section 33.26, the Non-Federal Sponsor is responsible for complying with the Single Audit Act Amendments of 1996 (31 U.S.C. 7501-7507), as implemented by Office of Management and Budget (OMB) Circular No. A-133 and Department of Defense Directive 7600.10. Upon request of the Non-Federal Sponsor and to the extent permitted under applicable Federal laws and regulations, the Government shall provide to the Non-Federal Sponsor and independent auditors any information necessary to enable an audit of the Non-Federal Sponsor’s activities under this Agreement. The costs of any non-Federal audits performed in accordance with this paragraph shall be allocated in accordance with the provisions of OMB Circulars A-87 and A-133, and such costs shall be allocated between the total costs of the Accelerated Work and total costs of the 65/35 Cost-Shared Work, as determined by the Government. The Non-Federal Sponsor shall be solely responsible for its costs for audits that are allocated to Accelerated Work. The Non-Federal Sponsor’s costs for audits allocated to the 65/35 Cost-Shared Work shall be included in the total costs of the 65/35 Cost-Shared Work and shared in accordance with the provisions of this Agreement. The Government, pursuant to Article II.C.2.a. of this Agreement, shall afford credit for such costs that are determined to be reasonable, allocable, and allowable.

C. In accordance with 31 U.S.C. 7503, the Government may conduct audits in addition to any audit that the Non-Federal Sponsor is required to conduct under the Single Audit Act Amendments of 1996. Any such Government audits shall be conducted in accordance with Government Auditing Standards and the cost principles in OMB Circular No. A-87 and other applicable cost principles and regulations. The costs of Government audits performed in accordance with this paragraph shall be allocated between the total costs of the Accelerated Work and total costs of the 65/35 Cost-Shared Work.
Work, as determined by the Government. The Government’s costs for audits allocated to the 65/35 Cost-Shared Work shall be included in the total costs of the 65/35 Cost-Shared Work and shared in accordance with the provisions of this Agreement.

ARTICLE XII - FEDERAL AND STATE LAWS

In the exercise of their respective rights and obligations under this Agreement, the Non-Federal Sponsor and the Government shall comply with all applicable Federal and State laws and regulations, which may include, but are not limited to: Section 601 of the Civil Rights Act of 1964, Public Law 88-352 (42 U.S.C. 2000d) and Department of Defense Directive 5500.11 issued pursuant thereto; Army Regulation 600-7, entitled "Nondiscrimination on the Basis of Handicap in Programs and Activities Assisted or Conducted by the Department of the Army"; all applicable Federal labor standards requirements including, but not limited to, 40 U.S.C. 3141-3148 and 40 U.S.C. 3701-3708 (revising, codifying and enacting without substantive change the provisions of the Davis-Bacon Act (formerly 40 U.S.C. 276a et seq.), the Contract Work Hours and Safety Standards Act (formerly 40 U.S.C. 327 et seq.), and the Copeland Anti-Kickback Act (formerly 40 U.S.C. 276c)) and, as it relates to the Non-Federal Sponsor, the Louisiana Public Bid Law (La. R.S. 38:2211 et seq.).

ARTICLE XIII - RELATIONSHIP OF PARTIES

A. In the exercise of their respective rights and obligations under this Agreement, the Government and the Non-Federal Sponsor each act in an independent capacity, and neither is to be considered the officer, agent, or employee of the other.

B. In the exercise of its rights and obligations under this Agreement, neither party shall provide, without the consent of the other party, any contractor with a release that waives or purports to waive any rights the other party may have to seek relief or redress against that contractor either pursuant to any cause of action that the other party may have or for violation of any law.

ARTICLE XIV - TERMINATION OR SUSPENSION

A. If at any time the Non-Federal Sponsor fails to fulfill its obligations under this Agreement, the Assistant Secretary of the Army (Civil Works) shall terminate construction under this Agreement or suspend future performance under this Agreement unless he determines that continuation of work on the New Work is in the interest of the United States or is necessary in order to satisfy agreements with any other non-Federal interests in connection with the New Work.
B. In the event the Government projects that the amount of Federal funds available for the New Work through the then-current fiscal year, or the upcoming fiscal year, is not sufficient, the Government shall notify the Non-Federal Sponsor in writing of such insufficiency of funds and of the date the Government projects that the Federal funds available for the New Work will be exhausted. Upon the exhaustion of the amount of Federal funds available for the New Work, future performance under this Agreement shall be suspended. Such suspension shall remain in effect until such time that the Government notifies the Non-Federal Sponsor in writing that sufficient Federal funds are available to continue construction of the New Work, or the Government elects to terminate further construction under this Agreement.

C. In the event that the Government and the Non-Federal Sponsor determine to suspend future performance under this Agreement in accordance with Article XV of this Agreement, such suspension shall remain in effect until the Government and the Non-Federal Sponsor agree to proceed or to terminate construction under this Agreement. In the event that the Government suspends future performance under this Agreement in accordance with Article XV of this Agreement due to failure to reach agreement with the Non-Federal Sponsor on whether to proceed or to terminate construction under this Agreement, or the failure of the Non-Federal Sponsor to provide funds to pay for cleanup and response costs or to otherwise discharge responsibilities under Article XV of this Agreement, such suspension shall remain in effect until: 1) the Government and Non-Federal Sponsor reach agreement on how to proceed or to terminate construction under this Agreement; 2) the Non-Federal Sponsor provides funds necessary to pay for cleanup and response costs and otherwise discharge its responsibilities under Article XV of this Agreement; 3) the Government continues work on the New Work; or 4) the Government terminates construction under this Agreement in accordance with the provisions of Article XV of this Agreement.

D. In the event that construction under this Agreement is terminated pursuant to this Article or Article XV of this Agreement, the parties shall conclude their activities relating to further construction of the New Work. To provide for this eventuality, the Government may reserve a percentage of total Federal funds made available for the New Work and an appropriate percentage, as determined by the Government, of total funds contributed by the Non-Federal Sponsor for the 65/35 Cost-Shared Work as a contingency to pay costs of termination, including any costs of resolution of real estate acquisition, resolution of contract claims and resolution of contract modifications.

E. Any termination of construction under this Agreement or suspension of future performance under this Agreement in accordance with this Article or Article XV of this Agreement shall not relieve the parties of liability for any obligation previously incurred. Any delinquent payment owed by the Non-Federal Sponsor shall be charged interest at a rate, to be determined by the Secretary of the Treasury, equal to 150 per centum of the average bond equivalent rate of the 13 week Treasury bills auctioned immediately prior to
the date on which such payment became delinquent, or auctioned immediately prior to the beginning of each additional 3 month period if the period of delinquency exceeds 3 months.

ARTICLE XV - HAZARDOUS SUBSTANCES

A. Investigations.

1. 65/35 Cost-Shared Work. After execution of this Agreement and upon direction by the District Engineer, the Non-Federal Sponsor shall perform, or ensure performance of, any investigations for hazardous substances that the Government or the Non-Federal Sponsor determines to be necessary to identify the existence and extent of any hazardous substances regulated under the Comprehensive Environmental Response, Compensation, and Liability Act (hereinafter “CERCLA”) (42 U.S.C. 9601-9675), that may exist in, on, or under lands, easements, and rights-of-way that the Government determines, pursuant to Article III of this Agreement, to be required for construction, operation, and maintenance of the 65/35 Cost-Shared Work. However, for lands, easements, and rights-of-way that the Government determines to be subject to the navigation servitude, only the Government shall perform such investigations unless the District Engineer provides the Non-Federal Sponsor with prior specific written direction, in which case the Non-Federal Sponsor shall perform such investigations in accordance with such written direction.

   a. All actual costs incurred by the Non-Federal Sponsor for such investigations for hazardous substances shall be included in total costs of the 65/35 Cost-Shared Work and shared in accordance with the provisions of this Agreement, subject to an audit in accordance with Article XI.C. of this Agreement to determine reasonableness, allocability, and allowability of costs. The Government, pursuant to Article II.C.2.a. of this Agreement, shall afford credit for such costs that are determined to be reasonable, allocable, and allowable.

   b. All actual costs incurred by the Government for such investigations for hazardous substances shall be included in total costs of the 65/35 Cost-Shared Work and shared in accordance with the provisions of this Agreement.

2. Accelerated Work. The Government shall be responsible for all general investigations and costs to identify the existence and extent of any hazardous substances regulated under the Comprehensive Environmental Response, Compensation, and Liability Act (hereinafter “CERCLA”) (42 U.S.C. 9601-9675), that may exist in, on, or under lands, easements, and rights-of-way that the Government determines, pursuant to Article III of this Agreement, to be required for construction, operation, and maintenance of the Accelerated Work and such costs shall be included in total costs of the Accelerated Work.

B. Discovery of Hazardous Substances Prior to Land Acquisition. In the event it is discovered through any investigation for hazardous substances or other means that hazardous substances regulated under CERCLA exist in, on, or under any lands, easements,
or rights-of-way that the Government determines, pursuant to Article III of this Agreement, to be required for construction, operation, and maintenance of the New Work, the Non-Federal Sponsor and the Government, in addition to providing any other notice required by applicable law, shall provide prompt written notice to each other, and shall not proceed with the acquisition of the real property interests until the parties agree that acquisition should proceed.

1. 65/35 Cost-Shared Work. If, pursuant to agreement by the Non-Federal Sponsor and the Government under this paragraph, the Non-Federal Sponsor acquires lands, easements, or rights-of-way that are required for the construction, operation, and maintenance of the 65/35 Cost-Shared Work, the Non-Federal Sponsor shall be responsible, as between the Government and the Non-Federal Sponsor, for the costs of cleanup and response determined to be necessary by the environmental regulator with jurisdiction, including the costs of any studies and investigations necessary to determine an appropriate response to the contamination, on such lands, easements, or rights-of-way. Such costs incurred by the Non-Federal Sponsor shall not be considered a part of total costs of the 65/35 Cost-Shared Work or a part of total costs of the Accelerated Work.

   a. If, pursuant to agreement by the Non-Federal Sponsor and the Government under this paragraph, the Non-Federal Sponsor acquires lands, easements, or rights-of-way that are required for the construction, operation, and maintenance of the Accelerated Work, the Non-Federal Sponsor shall be responsible, as between the Government and the Non-Federal Sponsor, for the costs of cleanup and response determined to be necessary by the environmental regulator with jurisdiction, including the costs of any studies and investigations necessary to determine an appropriate response to the contamination, on such lands, easements, or rights-of-way. Such costs incurred by the Non-Federal Sponsor shall not be considered a part of total costs of the New Work.

   b. If the Non-Federal Sponsor does not agree to acquire such lands, easements, or rights-of-way but requests the Government to perform the acquisition pursuant to Article III.A.2. of this Agreement, the Government, in its sole discretion, may proceed with acquisition of such lands, easements, or rights-of-way or may either terminate construction of the Accelerated Work under this Agreement for the convenience of the Government, or suspend future performance under this Agreement.

C. Discovery of Hazardous Materials After Land Acquisition. In the event it is discovered after acquisition of lands, easements, or rights-of-way required for the construction, operation, and maintenance of the New Work that hazardous substances regulated under CERCLA exist therein, thereon, or thereunder, the Non-Federal Sponsor and the Government, in addition to providing any other notice required by applicable law, shall provide prompt written notice to each other, and shall not initiate construction of the
New Work, or, if already in construction, shall not continue with construction of the New Work, until the parties agree that construction should be initiated or continued.

1. 65/35 Cost-Shared Work. If hazardous substances regulated under CERCLA are discovered to exist in, on, or under lands, easements, or rights-of-way required for the 65/35 Cost-Shared Work after they have been acquired by the Non-Federal Sponsor, the Government and the Non-Federal Sponsor shall determine whether to initiate construction of the 65/35 Cost-Shared Work, or, if already in construction, whether to continue with construction of the 65/35 Cost-Shared Work, suspend future performance under this Agreement, or terminate construction under this Agreement for the convenience of the Government. Should the Government and the Non-Federal Sponsor determine to initiate or continue with construction of the 65/35 Cost-Shared Work after considering any liability that may arise under CERCLA, the Non-Federal Sponsor shall be responsible, as between the Government and the Non-Federal Sponsor, for the costs of cleanup and response determined to be necessary by the environmental regulator with jurisdiction, including the costs of any studies and investigations necessary to determine an appropriate response to the contamination, on all lands, easements, and rights-of-way required for construction, operation, and maintenance of the 65/35 Cost-Shared Work. Such costs incurred by the Non-Federal Sponsor shall not be considered a part of total costs of the 65/35 Cost-Shared Work. In the event the Non-Federal Sponsor does not reach agreement with the Government on whether to proceed or to terminate construction under this paragraph, or fails to provide any funds necessary to pay for cleanup and response costs or to otherwise discharge the Non-Federal Sponsor’s responsibilities under this paragraph upon direction by the Government, the Government, in its sole discretion, may either terminate construction under this Agreement for the convenience of the Government, suspend future performance under this Agreement, or continue with construction of the 65/35 Cost-Shared Work.

   a. Lands Acquired or Provided by the Non-Federal Sponsor. If hazardous substances regulated under CERCLA are discovered to exist in, on, or under lands, easements, or rights-of-way required for the Accelerated Work after they have been acquired by the Non-Federal Sponsor, the Government and the Non-Federal Sponsor shall determine whether to initiate construction of the Accelerated Work, or, if already in construction, whether to continue with construction of the Accelerated Work, suspend future performance under this Agreement, or terminate construction under this Agreement for the convenience of the Government. Should the Government and the Non-Federal Sponsor determine to initiate or continue with construction of the Accelerated Work after considering any liability that may arise under CERCLA, the Non-Federal Sponsor shall be responsible, as between the Government and the Non-Federal Sponsor, for the costs of cleanup and response determined to be necessary by the environmental regulator with jurisdiction, including the costs of any studies and investigations necessary to determine an appropriate response to the contamination, on all lands, easements, and rights-of-way required for
construction, operation, and maintenance of the *Accelerated Work* that were acquired or provided by the Non-Federal Sponsor. Such costs incurred by the Non-Federal Sponsor shall not be considered a part of *total costs of the New Work*. In the event the Non-Federal Sponsor does not reach agreement with the Government on whether to proceed or to terminate construction under this paragraph, or fails to provide any funds necessary to pay for cleanup and response costs or to otherwise discharge the Non-Federal Sponsor's responsibilities under this paragraph upon direction by the Government, the Government, in its sole discretion, may either terminate construction under this Agreement for the convenience of the Government, suspend future performance under this Agreement, or continue with construction of the *Accelerated Work*.

b. **Private Lands Provided by the Government.** In any case where hazardous substances regulated under CERCLA are found to exist in, on, or under any privately owned lands, easements, or rights-of-way that are required for construction, operation, and maintenance of the *Accelerated Work* and that were acquired by the Government after request by the Non-Federal Sponsor in accordance with Article III.A.2. of this Agreement, the Government, in its sole discretion, may either terminate construction of the *Accelerated Work* under this Agreement for the convenience of the Government, suspend future performance on the *Accelerated Work* under this Agreement, or continue with construction of the *Accelerated Work*.

D. **Consultation Regarding Responsible Parties.** The Non-Federal Sponsor and the Government shall consult with each other in accordance with Article V of this Agreement in an effort to ensure that responsible parties bear any necessary cleanup and response costs as defined in CERCLA. Any decision made pursuant to paragraph D. of this Article shall not relieve any third party from any liability that may arise under CERCLA. Except as between the Government and the Non-Federal Sponsor, nothing herein shall constitute, nor be deemed to constitute, a waiver by either party of any defense, immunity, entitlement to contribution, or exception to any environmental law, regulation, or liability.

E. **Operator Status.** As between the Government and the Non-Federal Sponsor, the Non-Federal Sponsor shall be considered the operator of the *Project* for purposes of CERCLA liability. To the maximum extent practicable, the Non-Federal Sponsor shall operate, maintain, repair, rehabilitate, and replace the *Project* in a manner that will not cause liability to arise under CERCLA. Upon the District Engineer’s notification in accordance with Article II.D. of this Agreement that the *New Work*, or a *functional portion of the New Work*, is complete and meets the ten percent annual exceedance probability design criteria, if hazardous substances regulated under CERCLA thereafter are found to exist in, on, or under any lands, easements, or rights of way required for OMRR&R of the *New Work*, or such functional portion, the Non-Federal Sponsor shall be responsible, as between the Government and the Non-Federal Sponsor, for the costs of cleanup and response determined to be necessary by the environmental regulator with jurisdiction, including the costs of any studies and investigations necessary to determine an appropriate response to the contamination.
ARTICLE XVI - NOTICES

A. Any notice, request, demand, or other communication required or permitted to be given under this Agreement shall be deemed to have been duly given if in writing and delivered personally or sent by telegram or mailed by first-class, registered, or certified mail, as follows:

If to the Non-Federal Sponsor:
Chairman
Coastal Protection and Restoration Authority of Louisiana
1501 North 3rd Street
Capitol Annex Building
Baton Rouge, LA 70802

If to the Government:
District Engineer
U.S. Army Corps of Engineers
New Orleans District
P.O. Box 60267
New Orleans, LA 70160-0267

B. A party may change the address to which such communications are to be directed by giving written notice to the other party in the manner provided in this Article.

C. Any notice, request, demand, or other communication made pursuant to this Article shall be deemed to have been received by the addressee at the earlier of such time as it is actually received or seven calendar days after it is mailed.

ARTICLE XVII- CONFIDENTIALITY

To the extent permitted by the laws governing each party, the parties agree to maintain the confidentiality of exchanged information when requested to do so by the providing party.

ARTICLE XVIII - HISTORIC PRESERVATION

A. The Government, as it determines necessary for the New Work, shall perform any identification, survey, or evaluation of historic properties and, as determined by the
Government, allocate the costs of such work between the total costs of the Accelerated Work and total costs of the 65/35 Cost-Shared Work. Any costs incurred by the Government that are allocated to the 65/35 Cost-Shared Work shall be included in total costs of the 65/35 Cost-Shared Work and shared in accordance with the provisions of this Agreement.

B. The Government, as it determines necessary for the New Work, shall perform or ensure the performance of any mitigation activities or actions for historic properties or that are otherwise associated with historic preservation including data recovery activities.

1. Any costs incurred by the Government related to the 65/35 Cost-Shared Work for such mitigation activities, except for data recovery activities associated with historic preservation, shall be included in total costs of the 65/35 Cost-Shared Work and shared in accordance with the provisions of this Agreement.

2. As specified in Section 7(a) of Public Law 86-523, as amended by Public Law 93-291 (16 U.S.C. 469c(a)), the costs of data recovery activities associated with historic preservation on the New Work shall be borne entirely by the Government and shall not be included in total costs of the New Work, up to the statutory limit of one percent of the total amount authorized to be appropriated to the Government for the New Work.

3. The Government shall not incur costs for data recovery activities associated with historic preservation that exceed the statutory one percent limit specified in paragraph B.2. of this Article unless and until the Assistant Secretary of the Army (Civil Works) has waived that limit and the Secretary of the Interior has concurred in the waiver in accordance with Section 208(3) of Public Law 96-515, as amended (16 U.S.C. 469c-2(3)). Any costs of data recovery activities associated with historic preservation that exceed the one percent limit, as allocated by the Government to the 65/35 Cost-Shared Work, shall not be included in total costs of the 65/35 Cost-Shared Work but shall be shared between the Non-Federal Sponsor and the Government as follows: 35 percent will be borne by the Non-Federal Sponsor and 65 percent borne by the Government.

C. If, during its performance of work-in-kind, relocations or construction of improvements required on lands, easements, and rights-of-way to enable the disposal of dredged or excavated material in accordance with Article III of this Agreement for the 65/35 Cost-Shared Work, the Non-Federal Sponsor discovers historic properties or other cultural resources that have not been evaluated by the Government pursuant to this Article, the Non-Federal Sponsor shall provide prompt written notice to the Government of such discovery. The Non-Federal Sponsor shall not proceed with performance of the work-in-kind, relocation or construction of the improvement that is related to such discovery until the Government provides written notice to the Non-Federal Sponsor that it should proceed with such work.
ARTICLE XIX - THIRD PARTY RIGHTS, BENEFITS, OR LIABILITIES

Nothing in this Agreement is intended, nor may be construed, to create any rights, confer any benefits, or relieve any liability, of any kind whatsoever in any third person not party to this Agreement.

ARTICLE XX - NON-LIABILITY OF OFFICERS AND EMPLOYEES

No officer, agent, consultant, or employee of the Non-Federal Sponsor, nor any officer, agent, consultant, or employee of the Government, may be charged personally, or held liable, under the terms or provisions of this Agreement because of any breach, attempted breach, or alleged breach thereof, except as provided in Section 912(b) of the Water Resources Development Act of 1986, Public Law 99-662, as amended (42 U.S.C. 1962d-5b note), or other applicable law.

ARTICLE XXI - OBLIGATIONS OF FUTURE APPROPRIATIONS

The Non-Federal Sponsor intends to fulfill fully its obligations under this Agreement. Nothing herein shall constitute, nor be deemed to constitute, an obligation of future appropriations by the Legislature of the State of Louisiana, where creating such an obligation would be inconsistent with Article 3, Section 16(A) of the 1974 Constitution of the State of Louisiana.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement, which shall become effective on the date of the last signature to this Agreement.

DEPARTMENT OF THE ARMY

BY: John Paul Woodley, Jr.
Assistant Secretary of the Army (Civil Works)

COASTAL PROTECTION AND RESTORATION AUTHORITY OF LOUISIANA

BY: Garret Graves
Chairman

DATE: 1/16/09
CERTIFICATE OF AUTHORITY

I, James D. "Buddy" Caldwell, do hereby certify that I am the principal legal officer of the Coastal Protection and Restoration Authority of Louisiana and that the Coastal Protection and Restoration Authority of Louisiana is a legally constituted public body with full authority under La. R.S. 49:213.4 to enter into the Project Partnership Agreement between the Department of the Army and the Coastal Protection and Restoration Authority of Louisiana in connection with the Southeast Louisiana, Louisiana Project, as modified. I hereby further certify that the Executive Assistant for Coastal Activities, who is statutorily designated as the Chairman of the Coastal Protection and Restoration Authority, has the authority under La. R.S. 49:213.3 and 49:213.4 to coordinate the powers, duties, and functions of state agencies relative to flood damage reduction and coastal protection and restoration and to use the contracting authority of any agency to implement plans relating to infrastructure, flood damage reduction, and coastal protection, including hurricane protection, and coastal wetlands conservation and restoration, and that the person who has executed this Project Partnership Agreement on behalf of the Coastal Protection and Restoration Authority of Louisiana has acted within their statutory authority.

IN WITNESS WHEREOF, I have made and executed this certification this

15th day of Jan 2009

RICHARD McGIMSEY
Director of Civil Division

FOR

JAMES D. "BUDDY" CALDWELL
Attorney General
State of Louisiana
CERTIFICATION REGARDING LOBBYING

The undersigned certifies, to the best of his or her knowledge and belief that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

(3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31 U.S.C. 1352. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

GARRETT GRAVES
Chairman
Coastal Protection and Restoration Authority of Louisiana
