CORPS OF ENGINEERS, NEW ORLEANS DISTRICT  
7400 LEAKE AVENUE  
NEW ORLEANS, LOUISIANA 70118

Regional Planning and Environment  
Division South

**NOTICE OF AVAILABILITY**

The U.S. Army Corps of Engineers, New Orleans District (CEMVN), has prepared Draft Supplemental Environmental Assessment #555 (SEA #555) titled "Terrebonne Non-Federal Levee Mitigation, Terrebonne Parish, Louisiana" which is available for your review. This notice is being posted in accordance with the National Environmental Policy Act (NEPA) of 1969 and the Council on Environmental Quality's (CEQ) Regulations [40 Code of Federal Regulations (CFR) 1500-1508].

A copy of SEA #555 is available upon request. Please contact Mr. Daniel Meden; U.S. Army Corps of Engineers; Regional Planning and Environment Division South; New Orleans Environmental Branch; CEMVN-PDP-ES; 7400 Leake Avenue; New Orleans, Louisiana 70118; to request a copy.

The purpose of the proposed action discussed in SEA #555 is to evaluate the impacts of purchasing brackish marsh credits from the Louisiana Department of Natural Resources In Lieu Fee Program and/or mitigation banks to offset the outstanding 6.73 AAHU brackish marsh mitigation requirement not satisfied through construction of the marsh creation project. Additionally, brackish marsh ILF program and/or mitigation bank credits would be purchased to mitigate the 2.48 AAHUs of damage to the marsh creation project incurred from ATV use of the site with the assumption that the non-Federal sponsor will not allow further damage to the project.

Requests also can be made by calling Mr. Daniel Meden at (504) 862-1014, by email to [mvnenvironmental@usace.army.mil](mailto:mvnenvironmental@usace.army.mil) or by fax to (504) 862-2088. Comments on this environmental assessment should be provided within 30 days of the date of this letter.

Marshall K. Harper  
Chief, Environmental Planning Branch
