## HOW TO DO BUSINESS WITH US

Identify your product or service. It is necessary to know the North American Industry Classification System (NAICS) code for your product or service.

Check with the Small Business Administration (SBA) to determine whether your business falls within the established table of small business size standards matched to NAICS industries.

You must be registered in SAM.gov to do business with the Federal Government.

Determine if your business qualifies for special certification.

Begin to search for current federal government procurement opportunities.

Familiarize yourself with all acquisition regulations.

Investigate if “getting on the GSA Schedule” is right for you.

Seek additional assistance in the federal, civilian and/or DoD marketplaces. APEX Accelerators are federally funded organizations that offer free help.

## RESOURCES

The Small Business Administration (SBA) was founded under the 1953 Small Business Act to “aid, counsel, assist and protect, insofar as is possible, the interests of small business concerns.” SBA has many assistance programs for Small Business Contractors. <https://www.sba.gov/>

APEX Accelerators (formerly PTAC) provides specialized and professional procurement technical assistance to a wide range of businesses who are actively seeking and/or performing on contracts and subcontracts with the federal, state and local governments. <https://www.apexaccelerators.us/#/>

Coastal Technical Assistance Center (CTAC) is a program generated and funded through Louisiana Economic Development (LED) and the Coastal Protection and Restoration Authority (CPRA). CTAC provides assistance to Louisiana-based, small businesses in obtaining contracts with entities involved in the restoration and recovery efforts of coastal Louisiana. <https://www.louisianactac.org/>

The System for Award Management (SAM.gov) is an official website of the U.S. Government. There is no cost to use SAM.gov. You can use this site to register to do business with the U.S. Government, update, renew, or check the status of your entity registration. <https://sam.gov/content/home>
