MEMORANDUM FOR Louisiana Coastal Wetlands Conservation and Restoration Task Force

SUBJECT: October 2020 Task Force Electronic Vote

1. As a result of Hurricane Zeta's impacts to New Orleans, LA, on 28 October 2020, including widespread power outages, the planned 29 October 2020 Coastal Wetlands Planning, Protection, and Restoration Act (CWPPRA) Task Force meeting was cancelled. In lieu of re-scheduling the October meeting, an electronic vote is requested on the agenda items that were to be presented for approval at that meeting. The CWPPRA Program's Technical Committee virtually convened on 3 September 2020 and considered requests for incremental Operation and Maintenance (O&M) and Monitoring funding for constructed cash flow projects, as well as O&M and Monitoring funding increases for non-cash flow projects. Other agenda items included: funding transfers from O&M to Monitoring, a scope change, and the initiation of deauthorization procedures for two projects. The recommendations of the Technical Committee can be referenced in the minutes of the meeting (Encl 1). The supporting materials for each recommendation are also enclosed (Encl 2).

2. I request an electronic vote from the Task Force regarding the approval of the following motions:

a. The CWPPRA Task Force approves and adopts the minutes from the May 6, 2020 Task Force meeting.

b. The CWPPRA Task Force approves the Technical Committee's recommendation to initiate deauthorization procedures for the Ship Shoal: Whiskey West Flank Restoration (TE-47) Project.

2. Agenda Item 1. Meeting Initiation

The meeting was conducted via WebEx virtual meeting platform, due to the COVID 19 pandemic and public gathering restrictions. Ms. Sarah Bradley, USGS, introduced herself as acting chairman on behalf of Mr. Mark Wingate. She called the meeting to order, and asked Technical Committee members to introduce themselves. Ms. Bradley invited opening comments from the Technical Committee. Ms. McCormick mentioned that her prayers and thoughts are with those who have been impacted by Hurricane Laura. Mr. Williams concurred, and mentioned that impacts to CWPPRA projects are being assessed. Mr. Lezina agreed as well, and expressed appreciation for those in attendance at this virtual meeting in lieu of physical meetings. Ms. Bradley mentioned that the USACE has begun implementation of its FEMA-assigned Blue Roof program, and is expected to carry out its temporary housing program as well. Ms. McCormick also mentioned that EPA would be conducting its FEMA-assigned mission for air- and waste water-quality monitoring. Finally, Ms. Bradley acknowledged this year's 30th Anniversary of the CWPPRA Program; details for commemoration festivities are being devised in consideration of on-going COVID restrictions.

Mrs. Bradley asked the Technical Committee for any recommended changes to the agenda for today's proceedings. Mr. Paul requested the removal of Agenda Item #6 (Initial deauthorization of ME-32), allowing more time to consider options for project continuation.

Mrs. Bradley called for a motion to remove Agenda Item #6 and adopt the revised agenda.

Decision: Mr. Roy made the motion, which Mr. Paul seconded; the motion passed without opposition.

Mrs. Bradley iterated the protocol for Technical Committee participation and public comment in this virtual meeting format.
