Dear Mr. Chiasson:

Receipt is acknowledged of your letter dated May 7, 2010, requesting authority to place sand bags to plug breaches located along Fourchon Beach between the Lafourche/Jefferson Parish line and Highway LA 3090 in Port Fourchon, Louisiana.

The proposed work is permitted under authority of General Permit NOD-20. This approval to perform work is valid for 5 years from the date of this letter. This authorization does not eliminate the need to obtain a Louisiana Coastal Use Permit or any other federal, state, or local approval, that may be required by law.

The opinion has been made on the basis of information provided by your letter. If it is later established that you furnished erroneous data, you may be directed to alter or modify your plans, to remove structures you have installed, and/or to restore the work area pre-project conditions at your own expense. If it is established that you knowingly furnished erroneous data, you could also be subject to legal action.

The New Orleans District Regulatory Branch is committed to providing quality and timely service to our customers. In an effort to improve customer service, please take a moment to complete and return the attached Customer Service Survey or go to the survey found on our web site at <http://per2.nwp.usace.army.mil/survey.html>.

Mr. Morgan,

The Lafourche Parish Government (Parish President Charlotte Randolph), in conjunction with the Greater Lafourche Port Commission (Executive Director Chett Chiasson), would like to request an emergency use authorization to place large sand bags in breaches along Fourchon Beach between the Lafourche/Jefferson Parish line and Highway LA 3090 in Port Fourchon.

The Louisiana National Guard will place the sand bags using their aviation section. Please see the attached police report for breach locations and GPS coordinates where sand bags are needed.

If you have any further questions, please contact me at [REDACTED] or by email at chettc@portfourchon.com.

Sincerely,

Chett Chiasson
Executive Director

**EMERGENCY USE AUTHORIZATION
STATEMENT AND RECOMMENDATION FORM**

Applicant: Greater Lafourche Port Commission

In accordance with the Louisiana Administrative Code Title 43§723.B.3.b. Coastal Management Division has been notified by the above-named applicant that a situation has occurred that requires immediate corrective attention.

1. **Nature of hazard.** (LAC 43§723.B.3.a.i)

- a. Hazard to life
- b. Potential loss of property
- c. Threat of damage to the environment

2. **Cause of emergency situation.** (LAC 43§723.B.3.a.i)

- a. Natural:
 - 1. storm
 - 2. flood
 - 3. fire
 - 4. other: Gustav and Ike
- b. Man-made:
 - 1. wreck
 - 2. explosion
 - 3. spill
 - 4. other:

3. **Corrective action necessitated by the emergency situation:** (LAC 43§723.B.3.a.ii)

Sandbags are to be airlifted to the location to plug five breaches along the beach.

4. **Comments:**

5. **Recommendation for approval:**

Lafourche Parish, LA

Dear Mr. Chiasson:

We have reviewed the information presented to the Office of Coastal Management (OCM) in your Emergency Use Authorization request dated date. Pursuant to the provisions contained in the LAC (Title 43, Part I, Chapter 7 §723.B.3.), the Emergency Use Authorization request is hereby granted. This Emergency Use Authorization provides only for that work necessary to accomplish nature of emergency and is contingent upon acceptance of the following conditions:

1. This Emergency Use Authorization is strictly limited to the activity as described in your request and accompanying plats.
2. Dredge and fill activities for site access are not authorized unless specifically described in the work statement of this letter.

Post Office Box 44487 • Baton Rouge, Louisiana 70804-4487
617 North Third Street • 10th Floor • Suite 1078 • Baton Rouge, Louisiana 70802
(225) 342-7591 • Fax (225) 342-9439 • <http://www.dnr.louisiana.gov>

An Equal Opportunity Employer

3. The applicant agrees, by virtue of the commencement of authorized activities, to submit to OCM, a complete application packet (\$100 application fee, Joint Application Form, vicinity plats, plan plats, cross section plats, etc.) for the activity not more than thirty (30) days from the date of this authorization. You may obtain a free application packet by calling our office at (225) 342-7591 or (800)-267-4019; or by visiting our website at <http://www.dnr.state.la.us/crm/coastmgmt/cup/cup.asp>.
4. The applicant agrees, by virtue of the commencement of authorized activities, to avoid to the maximum extent practicable, vegetated wetland impacts, and if necessary to mitigate for those unavoidable adverse impacts to vegetated wetlands, including submerged aquatics, should OCM determine that mitigation is necessary. Should OCM deem mitigation to be necessary, the applicant agrees, by virtue of the commencement of authorized activities, to submit and fulfill a mitigation plan that has been approved by OCM.
5. The applicant agrees, by virtue of the commencement of authorized activities, to adjust, alter, or remove any structure or other evidence of the authorized emergency use if, in the sole opinion of OCM, it proves to be beyond the scope of the authorized activity or has been abandoned.
6. The applicant agrees, by virtue of the commencement of authorized activities, to hold and save the State of Louisiana, the Department of Natural Resources (DNR), and their officers and employees harmless from any damage to persons or property which might result from the emergency use.
7. The applicant agrees, by virtue of the commencement of authorized activities, to certify that the emergency use has been completed in an acceptable and satisfactory manner and in accordance with the plans and specifications approved by OCM as referenced herein. OCM may, when it deems appropriate, require that such certification be given by a registered engineer.
8. The applicant agrees, by virtue of the commencement of authorized activities, to ensure that this Emergency Use Authorization, or a copy thereof, shall be available for inspection at the work site at all times during operations.
9. The applicant agrees, by virtue of the commencement of authorized activities, to notify OCM of the date on which initiation of the authorized emergency activity began. The applicant shall notify OCM by mailing the enclosed green initiation card on the date of initiation of the authorized activities.

10. The applicant agrees, by virtue of the commencement of authorized activities that should changes in the location or the section of the existing waterways, or in the generally prevailing conditions in the vicinity be required in the future, in the public interest, applicant shall remove the sandbags and restore the site upon request of OCM.
11. Unless otherwise specified, this Emergency Use Authorization will expire 30 days from the date of this letter, if the work has not been initiated or if the applicant has not submitted a complete Coastal Use Permit Application to OCM for the authorized activity. This expiration condition will be waived only if the applicant notifies OCM of the reason(s) for the delay and proposes an acceptable schedule for initiation of the work, or submits a complete Coastal Use Permit Application.
12. The following conditions have been provided by the Louisiana Department of Wildlife and Fisheries

Louisiana Natural Heritage Program:

Our database indicates the presence of bird nesting colonies within one mile of this proposed project. **Please be aware that entry into or disturbance of active breeding colonies is prohibited by the Louisiana Department of Wildlife and Fisheries (LDWF). In addition, LDWF prohibits work within a certain radius of an active nesting colony.**

Nesting colonies can move from year to year and no current information is available on the status of these colonies. If work for the proposed project will commence during the nesting season, conduct a field visit to the worksite to look for evidence of nesting colonies. This field visit should take place no more than two weeks before the project begins. If no nesting colonies are found within 400 meters (700 meters for brown pelicans) of the proposed project, no further consultation with LDWF will be necessary. If active nesting colonies are found within the previously stated distances of the proposed project, further consultation with LDWF will be required. In addition, colonies should be surveyed by a qualified biologist to document species present and the extent of colonies. Provide LDWF with a survey report which is to include the following information:

1. qualifications of survey personnel;
2. survey methodology including dates, site characteristics, and size of survey area;
3. species of birds present, activity, estimates of number of nests present, and general vegetation type including digital photographs representing the site;

4. and topographic maps and ArcView shapefiles projected in UTM NAD83 Zone 15 to illustrate the location and extent of the colony.

Please mail survey reports on CD to: Louisiana Natural Heritage Program
La. Dept. of Wildlife & Fisheries
P.O. Box 98000
Baton Rouge, LA 70898-9000

To minimize disturbance to colonial nesting birds, the following restrictions on activity should be observed:

- For colonies containing nesting wading birds (i.e., herons, egrets, night-herons, ibis, roseate spoonbills, anhingas, and/or cormorants), all project activity occurring within 300 meters of an active nesting colony should be restricted to the non-nesting period (i.e., September 1 through February 15).

- For colonies containing nesting gulls, terns, and/or black skimmers, all project activity occurring within 400 meters (700 meters for brown pelicans) of an active nesting colony should be restricted to the non-nesting period (i.e., September 16 through April 1).

The piping plover (*Charadrius melodus*) may occur within one mile of the project area. This species is federally listed as threatened with its critical habitat designated along the Louisiana coast. Piping plovers winter in Louisiana feeding at intertidal beaches, mudflats, and sand flats with sparse emergent vegetation. Primary threats to this species are destruction and degradation of winter habitat, habitat alteration through shoreline erosion, woody species encroachment of lake shorelines and riverbanks, and human disturbance of foraging birds. For more information on piping plover critical habitat, visit the U.S. Fish and Wildlife website: <http://endangered.fws.gov>.

No other impacts to rare, threatened or endangered species or critical habitats are anticipated from the proposed project. No state or federal parks, wildlife refuges, wildlife management areas or scenic rivers are known at the specified site or within ¼ mile of the proposed project.

The Louisiana Natural Heritage Program (LNHP) has compiled data on rare, endangered, or otherwise significant plant and animal species, plant communities, and other natural features throughout the State of Louisiana. LNHP reports summarize the existing information known at the time of the request regarding the location in question. LNHP reports should not be considered final statements on

the biological elements or areas being considered, nor should they be substituted for on-site surveys required for environmental assessments. If at any time LNHP tracked species are encountered within the project area, please contact our biologist at 225-765-2643.

13. This authorization is not valid unless the applicant agrees to the terms and conditions provided for herein by executing in the space provided below.

Should you have any questions or need additional help, please feel free to contact Christine Charrier, Permits Program Manager, at [REDACTED]

Sincerely,

Karl Morgan,
Acting Administrator

If no nesting colonies are found within 400 meters (700 meters for brown pelicans) of the proposed project, no further consultation with LDWF will be necessary. If active nesting colonies are found within the previously stated distances of the proposed project, further consultation with LDWF will be required. In addition, colonies should be surveyed by a qualified biologist to document species present and the extent of colonies. Provide LDWF with a survey report which is to include the following information:

1. qualifications of survey personnel;
2. survey methodology including dates, site characteristics, and size of survey area;
3. species of birds present, activity, estimates of number of nests present, and general vegetation type including digital photographs representing the site;

4. and topographic maps and ArcView shapefiles projected in UTM NAD83 Zone 15 to illustrate the location and extent of the colony.

Please mail survey reports on CD to: Louisiana Natural Heritage Program
La. Dept. of Wildlife & Fisheries
P.O. Box 98000
Baton Rouge, LA 70898-9000

To minimize disturbance to colonial nesting birds, the following restrictions on activity should be observed:

- For colonies containing nesting wading birds (i.e., herons, egrets, night-herons, ibis, roseate spoonbills, anhingas, and/or cormorants), all project activity occurring within 300 meters of an active nesting colony should be restricted to the non-nesting period (i.e., September 1 through February 15).

- For colonies containing nesting gulls, terns, and/or black skimmers, all project activity occurring within 400 meters (700 meters for brown pelicans) of an active nesting colony should be restricted to the non-nesting period (i.e., September 16 through April 1).

The piping plover (*Charadrius melodus*) may occur within one mile of the project area. This species is federally listed as threatened with its critical habitat designated along the Louisiana coast. Piping plovers winter in Louisiana feeding at intertidal beaches, mudflats, and sand flats with sparse emergent vegetation. Primary threats to this species are destruction and degradation of winter habitat, habitat alteration through shoreline erosion, woody species encroachment of lake shorelines and riverbanks, and human disturbance of foraging birds. For more information on piping plover critical habitat, visit the U.S. Fish and Wildlife website: <http://endangered.fws.gov>.

No other impacts to rare, threatened or endangered species or critical habitats are anticipated from the proposed project. No state or federal parks, wildlife refuges, wildlife management areas or scenic rivers are known at the specified site or within ¼ mile of the proposed project.

The Louisiana Natural Heritage Program (LNHP) has compiled data on rare, endangered, or otherwise significant plant and animal species, plant communities, and other natural features throughout the State of Louisiana. LNHP reports summarize the existing information known at the time of the request regarding the location in question. LNHP reports should not be considered final statements on

the biological elements or areas being considered, nor should they be substituted for on-site surveys required for environmental assessments. If at any time LNHP tracked species are encountered within the project area, please contact our biologist at 225-765-2643.

13. This authorization is not valid unless the applicant agrees to the terms and conditions provided for herein by executing in the space provided below.

Should you have any questions or need additional help, please feel free to contact Christine Charrier, Permits Program Manager, at ([REDACTED])

Sincerely,

Karl Morgan,
Acting Administrator

COMPLAINT INCIDENT REPORT ORIGINAL REPORT SUPPLEMENTAL REPORT

ORIGINAL REPORT NUMBER 21D-0506101623-04	RESPONDING OFFICER HPO Mitchell Hohensee	INCIDENT DATE 5-6-10	INCIDENT TIME 1623
IF THIS IS A SUPPLEMENTAL REPORT, FILL IN THE NEXT 2 BOXES	SUPPLEMENTAL REPORT NUMBER	ORIGINAL RESPONDING OFFICER	
NATURE OF INCIDENT Beach Flyover			
LOCATION OCCURRED Fourchon Beach			
IF POSSIBLE: PHYSICAL ADDRESS OF LOCATION OCCURRED			
COMPLAINANT HPO Mitchell Hohensee	COMPANY COMPLAINANT IS REPRESENTING GLPC Harbor Police	TELEPHONE [REDACTED]	
COMPLAINANT'S ADDRESS / CITY / STATE / ZIP 16829 East Main Street Galliano, La. 70354		E-MAIL ADDRESS mitchh@portfourchon.com	
HOW ADVISED?	HP1 request	PHOTOS / VIDEO	Yes AMOUNT 4

REPORT NARRATIVE:

Flyover compliments of Chevron Production done on 5-6-10 of the Fourchon Beach from Belle Pass to Elmer's Island recording breaches of the shoreline that pollution could enter the marshland. Latitude and longitude along with brief estimated width of openings and photos to follow.

29 07 70N 90 08 77W Approximately 150 foot wide.

DATE WRITTEN: _____ OFFICER: _____

29 07 84N 90 08 50W Approximately 25 foot wide.

29 08 25N 90 07 88W Approximately 15 foot wide.

DATE WRITTEN: _____ OFFICER: _____

29 09 77N 90 05 50W Approximately 150 foot wide.

There is an additional possible breach located at 29 06 70N 90 10 59W that the photo did not come out. It was not a directly visible breach. This location at high tide would have water passing over it into the marsh. The width of the water passage is approximately 20 foot wide.
