## **Outfall canal teams stand down**

NEW ORLEANS – As a result of the latest track of Tropical Depression Fay, the outfall canal teams have been deactivated as of 9:30 a.m. today, but will remain on alert.

Our emergency operations center will remain activated through the night, monitoring the canal levels via the supervisory control and data acquisition (SCADA) system and the Harvey Canal team will remain activated.

SCADA allows for remote operation of the gates and the pumps, should that become necessary. However, we do not anticipate having to so.
