SPECIAL PUBLIC NOTICE

TIME EXTENSION OF THE GENERAL PERMIT NOD-29 TO
DREDGE AND MAINTAIN BOAT SLIPS, INSTALL AND MAINTAIN
APPURTENANT STRUCTURES AND FILL, SUCH AS ASSOCIATED WALKWAYS,
BOAT SHEDS, BOATHOUSES, RIPRAP, BULKHEADS AND DEPOSITION OF HAULED
OR DREDGED MATERIAL BEHIND THE BULKHEADS FOR
STABILIZATION IN MANMADE CANALS ONLY

Interested parties are hereby notified that the general permit, originally issued by this district on September 26, 1983, has been modified and extended for 5 years until February 28, 2018. A copy of the general permit is enclosed.

In response to the public notice dated December 10, 2012, advertising the proposed time extension, the Louisiana Department of Wildlife and Fisheries requested the addition of a special condition to require that all fill material is free of protruding reinforcement material such as rebar. This request was granted and the permit has been modified accordingly.

All available information was considered in determining that the overall public interest would best be served by extending this general permit with the modifications described above.

Additional comments or suggestions for further modification of this general permit are solicited. Persons who become aware of problems or adverse impacts are requested to notify the Regulatory Branch of this district at the above address. This general permit will be suspended, revoked, or modified if it is shown to be in the public interest to do so.

Martin S. Mayer
Chief, Regulatory Branch
